Implementing new surgical instruments in minimally invasive surgery

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof.mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 15 november 2018
klokke 13.45

door

Lukas van den Haak

geboren te Dongen
in 1979

Promotor	prof. dr. F.W. Jansen
Copromotoren	dr. T.E. Nieboer
	(Radboud Universitair Medisch Centrum, Nijmegen)
	dr. J.P. Rhemrev
	(Haaglanden Medisch Centrum, Den Haag)
Leden promotiecommissie	prof. dr. D. Oepkes
	prof. dr. drs. M.P. Schijven
	(Academisch Medisch Centrum, Amsterdam)
	prof. dr. J.J. van den Dobbelsteen
	(Technische universiteit, Delft)

Table of contents

Chapter 1	General Introduction	**9**
Chapter 2	A new approach to simplify surgical colpotomy in laparoscopic hysterectomy	**17**
Chapter 3	Efficacy and Safety of Uterine Manipulators in Laparoscopic Surgery: a Review	**33**
Chapter 4	Human cadavers to evaluate prototypes of minimally invasive surgical instruments: a feasibility study.	**53**
Chapter 5	Assessing basic 'Physiology' of the Morcellation Process and Tissue Spread: A Time Action analysis	**65**
Chapter 6	Power morcellator features affecting tissue spill in gynecological Laparoscopy: an in vitro study	**79**
Chapter 7	A laparoscopic morcellator redesign to constrain tissue using integrated gripping teeth	**91**
Chapter 8	Incidence and groups at risk for unexpected uterine leiomyosarcoma: A Dutch nationwide cohort study	**121**
Chapter 9	Disseminated leiomyoma cells can be identified following conventional myomectomy	**135**
Chapter 10	Towards spill-free in-bag morcellation: a health failure mode and effects analysis	**147**
Chapter 11	Discussion and Future Perspectives	**161**
Chapter 12	Summary / Samenvatting	**179**
Chapter 13	Authors' affiliations	**187**
	List of publications	**188**
	Curriculum Vitae	**191**
	Dankwoord	**192**
