“De wetenschap is geen perfect instrument, maar het is wel het best mogelijke instrument. Net zoals de democratie niet het perfecte, maar wel het best denkbare systeem is.”
(van Springel 1999:4).

Contents

1	Introduction	<i>1</i>
1.1	From Site A to Site N	<i>1</i>
1.2	Beyond sites: theoretical background	<i>1</i>
1.3	Tackling the problem: lithic analysis and spatial patterning	<i>7</i>
1.4	Reconsidering the data	<i>7</i>
1.5	Step by step	<i>9</i>
2	An introduction to Maastricht-Belvédère: geology, palaeoenvironment and dating	<i>11</i>
2.1	Introduction	<i>11</i>
2.2	Geological setting of the Middle and Late Pleistocene deposits at Maastricht-Belvédère	<i>12</i>
2.2.1	Introduction	<i>12</i>
2.2.2	Maastricht-Belvédère: stratigraphy, dating evidence and palaeoenvironment	<i>14</i>
2.2.3	The main archaeological level (Unit IV): stratigraphy, dating evidence and palaeoenvironment	<i>15</i>
3	Reconstructing a Middle Palaeolithic technology: Maastricht-Belvédère Site K	<i>19</i>
3.1	Introduction	<i>19</i>
3.2	Geological setting	<i>19</i>
3.3	Dating evidence	<i>19</i>
3.4	Excavation-strategy	<i>22</i>
3.5	Technological and typological characterization of the lithic assemblage	<i>22</i>
3.5.1	Introduction	<i>22</i>
3.5.2	Raw material	<i>24</i>
3.5.3	Different flint types	<i>24</i>

3.5.4	Characterization of the assemblage	26
3.5.4.1	Introduction	26
3.5.4.2	The flake and core assemblage (primary flaking)	26
3.5.4.3	The tool assemblage (secondary flaking)	29
3.5.4.4	Resharpener flakes	32
3.6	The refitting analysis	32
3.6.1	Introduction	32
3.6.2	The refitting programme used at Site K	33
3.6.3	Computer applications: beyond 'SiteFIT'	35
3.6.4	Describing and visualizing the refitted reduction sequences	35
3.6.5	The Site K refitting results: technological information	38
3.6.5.1	Introduction	38
3.6.5.2	Refitted composition I	40
3.6.5.3	Refitted composition II	53
3.6.5.4	Refitted composition III	66
3.6.5.5	Refitted composition IV	69
3.6.5.6	Refitted composition V	76
3.6.5.7	Refitted composition VI	80
3.6.5.8	Refitted composition VII	80
3.6.5.9	Refitted composition VIII	85
3.6.5.10	Refitted composition IX	86
3.6.5.11	Refitted composition X	88
3.6.5.12	Refitted compositions XI, XII and XIII	94
3.6.5.13	Refitted composition XIV	98
3.6.5.14	Refitted composition XV	100
3.6.5.15	Refitted compositions XVI and XVII	103
3.7	Typo-/technological interpretation of the Site K lithic assemblage	107
3.7.1	Introduction	107
3.7.2	From the supply of raw materials to the production of cores and flakes	109
3.7.3	A typical disc/discoidal core-reduction and the presence of some Levallois flakes	111
3.7.4	The tools: a dominance of scrapers	113
3.7.5	Distilling inter-site information from the Site K data	114
3.8	Post-depositional processes	115
3.8.1	Horizontal disturbance of the artefact distribution	115
3.8.2	Vertical disturbance of the artefact distribution	115
3.9	Spatial distribution of the lithic material	122
3.9.1	Introduction	122
3.9.2	Spatial distribution of different find categories (thematic maps)	122
3.9.2.1	Spatial distribution of the total artefact assemblage	122
3.9.2.2	Spatial distribution of the total conjoined assemblage	123
3.9.2.3	Spatial distribution of the burned artefacts	123
3.9.2.4	Spatial distribution of the cores	136
3.9.2.5	Spatial distribution of the tools	136
3.9.3	Spatial distribution of the 17 conjoined compositions	136
3.9.3.1	Introduction	136
3.9.3.2	Spatial distribution of refitted composition I	136
3.9.3.3	Spatial distribution of refitted composition II	137

- 3.9.3.4 Spatial distribution of refitted compositions III and IV 150
- 3.9.3.5 Spatial distribution of refitted compositions V and VI 154
- 3.9.3.6 Spatial distribution of refitted composition VII 154
- 3.9.3.7 Spatial distribution of refitted composition VIII 157
- 3.9.3.8 Spatial distribution of refitted composition IX 157
- 3.9.3.9 Spatial distribution of refitted composition X 157
- 3.9.3.10 Spatial distribution of refitted compositions XI, XII and XIII 157
- 3.9.3.11 Spatial distribution of refitted composition XIV 159
- 3.9.3.12 Spatial distribution of refitted composition XV 162
- 3.9.3.13 Spatial distribution of refitted compositions XVI and XVII 168

- 3.10 Spatial interpretation of the Site K lithic assemblage 170
 - 3.10.1 Introduction 170
 - 3.10.2 Contemporaneity of the flint assemblage 170
 - 3.10.3 Spatial movement of technology: intra-site transport of lithics and activity area 177

- 3.11 Summary and discussion 182

4 Maastricht-Belvédère: the other Unit IV sites and finds, an introduction 191

- 4.1 Introduction 191
- 4.2 Maastricht-Belvédère Site A 191
 - 4.2.1 Introduction 191
 - 4.2.2 Characterization of the assemblage 191
 - 4.2.3 The refitting results 192
 - 4.2.4 Spatial distribution 192
 - 4.2.5 Interpretation 193
- 4.3 Maastricht-Belvédère Site B 193
 - 4.3.1 Introduction 193
 - 4.3.2 The refitting results and spatial distribution 194
 - 4.3.3 Interpretation 194
- 4.4 Maastricht-Belvédère Site C 194
 - 4.4.1 Introduction 194
 - 4.4.2 Characterization of the assemblage 196
 - 4.4.3 The refitting results 197
 - 4.4.4 Spatial distribution 198
 - 4.4.5 Interpretation 202
- 4.5 Maastricht-Belvédère Site D 202
 - 4.5.1 Introduction 202
 - 4.5.2 Characterization of the assemblage 202
 - 4.5.3 The refitting results 203
 - 4.5.4 Spatial distribution 203
 - 4.5.5 Interpretation 203
- 4.6 Maastricht-Belvédère Site F 204
 - 4.6.1 Introduction 204

4.6.2	Characterization of the assemblage	204
4.6.3	The refitting results	205
4.6.4	Spatial distribution	205
4.6.5	Interpretation	206
4.7	Maastricht-Belvédère Site G	207
4.7.1	Introduction	207
4.7.2	Characterization of the assemblage	208
4.7.3	The refitting results	208
4.7.4	Spatial distribution	209
4.7.5	Interpretation	209
4.8	Maastricht-Belvédère Site H	210
4.8.1	Introduction	210
4.8.2	Characterization of the assemblage	211
4.8.3	The refitting results	211
4.8.4	Spatial distribution	217
4.8.5	Interpretation	217
4.9	Maastricht-Belvédère Site N	217
4.9.1	Introduction	217
4.9.2	Characterization of the assemblage	219
4.9.3	The refitting results	219
4.9.4	Spatial distribution	220
4.9.5	Interpretation	220
4.10	Maastricht-Belvédère flint material found during different section studies and small test pit excavations: 1980-1990	222
4.10.1	Introduction	222
4.10.2	Maastricht-Belvédère Site L	222
4.10.3	Maastricht-Belvédère Site M	222
4.10.4	Maastricht-Belvédère Site O	223
4.10.5	Maastricht-Belvédère Site N, Level X	223
4.10.6	Maastricht-Belvédère 'July 1990' test pit	224
4.10.7	Maastricht-Belvédère Section finds	226
4.11	Conclusion	227

5 Patterns of behaviour: spatial aspect of technology at Maastricht-Belvédère, Unit IV 229

5.1	Introduction	229
5.2	Isaac's hierarchical model for structuring spatial artefact distributions	229
5.3	Contemporaneity of the Unit IV artefact distributions	230
5.4	Comparing the Unit IV Saalian assemblages	230
5.4.1	Introduction	230
5.4.2	A survey of research limitations	231
5.4.3	Inter-assemblage variability: a comparison of the data	234

5.4.3.1	Introduction	234
5.4.3.2	Comparison of the basic assemblage variations	235
5.4.3.3	Debitage specific inter-assemblage variations	237
5.4.3.4	Tool specific inter-assemblage variations	246
5.4.3.5	Conclusion	254
5.5	‘Scatters and patches’: a model for inter-assemblage variability	259
5.5.1	Introduction	259
5.5.2	The ‘high density’ find distributions or patches: Sites K, F, H and C	259
5.5.3	The ‘low density’ find distributions or scatters: Sites G and N	260
5.6	Explaining the inter-assemblage variability	261
5.6.1	Introduction	261
5.6.2	Typo-/technological and raw material patterns in the inter-assemblage variability	262
5.6.3	Early human transport of lithics	266
5.6.4	Expedient patterns in the use of technology	269
5.6.5	Conclusion	270
5.7	Discussion and conclusion	272

Appendices (on CD-Rom) 303

1	Analysing Middle Palaeolithic flint assemblages: the system used for the studying of the flint artefacts at Maastricht-Belvédère (The Netherlands) (De Loecker and Schlanger)	303
1.1	Introduction	
1.2	The attribute list used for the classification of lithic artefacts	
1.3	Description of the Light Duty Components: the flake analysis	
1.4	Description of the Light Duty Components: the tool analysis	
1.5	Description of the Heavy Duty Components: the core analysis	
2	Technological and typological description of the Maastricht-Belvédère Site A flint material	346
2.1	Introduction	
2.2	Primary flaking: the flakes	
2.3	Primary flaking: the core	
2.4	Secondary flaking: the tools	
3	Technological and typological description of the Maastricht-Belvédère Site B flint material	357
3.1	Primary flaking: the flakes	

4	Technological and typological description of the Maastricht-Belvédère Site C flint material	365
4.1	Introduction	
4.2	Primary flaking: the flakes	
4.3	Primary flaking: the cores	
4.4	Secondary flaking: the tools	
5	Technological and typological description of the Maastricht-Belvédère Site D flint material	389
5.1	Primary flaking: the flakes	
5.2	Primary flaking: the core	
6	Technological and typological description of the Maastricht-Belvédère Site F flint material	398
6.1	Primary flaking: the flakes	
6.2	Primary flaking: the cores	
6.3	Secondary flaking: the tools	
7	Technological and typological description of the Maastricht-Belvédère Site G flint material	419
7.1	Primary flaking: the flakes	
7.2	Secondary flaking: the tools	
8	Technological and typological description of the Maastricht-Belvédère Site H flint material	442
8.1	Primary flaking: the flakes	
8.2	Secondary flaking: the tools	
9	Technological and typological description of the Maastricht-Belvédère Site K flint material	464
9.1	Primary flaking: the flakes	
9.2	Primary flaking: the cores	
9.3	Secondary flaking: the tools	
9.4	Secondary flaking: typology/technology of the different tool types	
9.4.1	Scrapers	
9.4.2	Clactonian retouched pieces	
9.4.3	Backed knives	
9.4.4	Burins	
9.4.5	Retouched pieces and pieces with signs of use	

**10 Technological and typological description of the Maastricht-Belvédère Site N
flint material 581**

- 10.1 Primary flaking: the flakes
- 10.2 Primary flaking: the core
- 10.3 Secondary flaking: the tools

**11 Technological and typological description of the Maastricht-Belvédère
flint material found during different section and small test pit excavations:
1980-1990 609**

- 11.1 Introduction
- 11.2 Primary flaking: the flakes
- 11.3 Primary flaking: the core
- 11.4 Secondary flaking: the tools
