The research described in this thesis was supported by a research grant from the Netherlands Organization for Scientific Research (NWO) awarded to Lorenza S. Colzato (Vidi grant: #452-12-001).

Cognitive enhancement: Toward the integration of theory and practice

Proefschrift

Ter verkrijging van de graad van Doctor
aan de Universiteit Leiden,
op gezag van Rector Magnificus prof. mr. C. J. J. M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 16 juni 2016 klokke 11.15 uur.

door

Laura Steenbergen
geboren te Gouda
op 4 augustus 1991

Promotor:

Prof. dr. S. T. Nieuwenhuis

Co-promotores:

Dr. L. S. Colzato

Dr. R. Sellaro

Promotiecommissie:

Prof. dr. B. U. Forstmann

Prof. dr. R. W. H. J. Wiers (Universiteit van Amsterdam)

Dr. A.-K. Stock (Technische Universität Dresden)

Table of Contents

Introduction.....	1
Overview	3
Brain stimulation	3
Cognitive training	7
Food supplements.....	8
Openness in science	13
Transcutaneous vagus nerve stimulation (tVNS) enhances response selection during action cascading processes.....	15
Abstract	16
1. Introduction.....	17
2. Method	19
2.1. Participants.....	19
2.2. Apparatus and procedure	20
2.3. Statistical analyses.....	23
3. Results	25
3.1. Stop-Change paradigm	25
3.2. HR measurements	26
4. Discussion	27
Transcutaneous vagus nerve stimulation (tVNS) does not increase prosocial behavior in Cyberball	29
Abstract	30
1. Introduction.....	31
2. Method	33
2.1. Participants.....	33
2.2. Apparatus and Procedure.....	34
2.3. Statistical Analyses	37

3. Results	38
3.1. Cyberball task	38
3.2. Empathy Quotient (EQ) and Interpersonal Reactivity Index (IRI) .	39
3.3. Physiological and mood measurements.....	40
4. Discussion	42
"Unfocus" on foc.us: Commercial tDCS headset impairs working memory	45
Abstract	46
1. Introduction.....	47
2. Method	49
2.1. Participants.....	49
2.2. Apparatus and procedure	50
2.3. Statistical Analyses	53
3. Results	54
3.1. Foc.us (tDCS) adverse effects	54
3.2. N-back task	55
4. Discussion	58
Action video gaming and cognitive control: playing first person shooter games is associated with improved action cascading but not inhibition.....	59
Abstract	60
1. Introduction.....	61
2. Method	65
2.1. Participants.....	65
2.2. Apparatus and procedure	66
2.3. Statistical analysis.....	69
3. Results	72
3.1. Additional analyses.....	73

4. Discussion	74
γ -Aminobutyric acid (GABA) administration improves action selection processes: a randomized controlled trial	81
Abstract	82
1. Introduction.....	83
2. Method	88
2.1. Participants.....	88
2.2. Apparatus and procedure	89
2.3. Statistical Analyses	92
3. Results	92
4. Discussion	94
Tyrosine promotes cognitive flexibility: Evidence from proactive vs. reactive control during task switching performance	97
Abstract	98
1. Introduction.....	99
2. Method	102
2.1. Participants.....	102
2.2. Apparatus, stimuli, and task	103
2.3. Procedure and design.....	104
2.4. Statistical analysis.....	105
3. Results	105
3.1. Task-switching performance	105
3.2. Physiological and mood measurements.....	108
4. Discussion	108
Tryptophan promotes charitable donating	113
Abstract	114
1. Introduction.....	115

2. Method	116
2.1. Participants.....	116
2.2. Apparatus and procedure	117
2.3. Statistical Analysis	118
3. Results	118
3.1. Participants.....	118
3.2. Donating Task	118
3.3. Physiological and Mood Measurements	118
4. Discussion	119
Tryptophan supplementation modulates social behavior: a review	121
Abstract	122
1. Introduction.....	123
2. Literature Overview.....	128
2.1. Clinical populations: inhibiting antisocial behavior.....	136
2.2. Healthy humans: promoting behavior	140
3. Factors modulating TRP effectivity.....	143
4. Conclusion	147
A randomized controlled trial to test the effect of multispecies probiotics on cognitive reactivity to sad mood.....	151
Abstract	152
1. Introduction.....	153
2. Method	156
2.1. Participants.....	156
2.2. Apparatus and procedure	157
2.3. Statistical analyses.....	161
3. Results	162

3.1. Randomization.....	162
3.2. Probiotic treatment and cognitive reactivity	164
4. Discussion	164
Conclusion	169
Samenvatting.....	175
References.....	181
Acknowledgements/Dankwoord.....	233
Curriculum Vitae.....	235
Publications	237
