Title: Of marks and meaning : a palaeographic, semiotic-cognitive, and comparative analysis of the identity marks from Deir el-Medina

Issue Date: 2016-09-07

LIST OF FIGURES, TABLES AND PLATES

FIGURES

Fig. 0-1	Glottographic and semasiographic writing systems	xvii
Fig. 0-2	Blurred distinction between glottographic and semasiographic systems	xviii
Fig. 0-3	Elkin's Venn-diagram of visual communication	xix
Fig. 0-4	Calligraphy as a mixed form of Writing and Picture	xx
Fig. 0-5	Alphabetic letters are originally pictorial	xx
Fig. 0-6	The Aztec Féjéváy Codes is a narrative in map-form	xxi
Fig. 0-7	Brand marks using writing, picture and nonlinguistic spatial arrangements	xxi
Fig. 0-8	Rock art as a mixed form of Picture and Notation	xxii
Fig. 0-9	Scientific schemata are especially based on Notation	xxii
Fig. 0-10	Mathematical formulas make use especially of Writing and Notation	xxiii
Fig. II-1	Specimens of mark I 16.004 on ostracon IFAO ONL 6298	12
Fig. II-2	Neat handwriting on ostraca from dynasty 18	16
Fig. II-3	Ostraca from dynasty 18	27
Fig. II-4	Ostraca from dynasty 19	27
Fig. II-5	Ostraca from dynasty 20	28
Fig. II-6	The human face in grid lines, giving the marks †† and †††	33
Fig. II-7	The universal classification of marking systems in traditional perspectives	37
Fig. II-8	Elkin's Venn-diagram applied to the marking system	37
Fig. II-9	The changing nature of the marking system over time	38
Fig. I2-1	'Greek letters' on the Tell el-Yahudieh tiles	50
Fig. I2-2	The sherd Nagel <i>Céramique</i> 049 fig. 31 nr. 315	62
Fig. I2-3	Control note from the pyramid at Mazghuneh	65
Fig. I2-4	Builders' marks from the Old and Middle Kingdoms	70
Fig. I2-5	Block Sc1 from the causeway of Sahure	71
Fig. I2-6	The divisions of a boat's crew	72
Fig. I2-7	The division of workers into <i>pr.w</i> -crews, <i>z3</i> -divisions and <i>ts.t</i> -teams	74
Fig. I2-8	Blocks from the mastaba of Ptahshepses with control notes and marks	75

Fig. I2-9	Middle Kingdom builders' inscriptions	77
Fig. I2-10	Builders' inscription from the pyramid of Senwosret I	77
Fig. I2-11	The geographical section from the Ramesseum Onomasticon	81
Fig. I2-12	Ostraca from the archaeological context of the tomb of Amenhotep III	89
Fig. I3-1	Ostrakon IFAO ONL 6324	98
Fig. II2-1	De Saussure's representation of the speech circuit	117
Fig. II2-2	De Saussure's dyadic sign model consisting of signifier and signified	117-118
Fig. II2-3	Linear, sequential relations between signs	119
Fig. II2-4	Constellation of associative groups of signs	120
Fig. II2-5	Visual summary of De Saussure's theory of meaning	121
Fig. II2-6	Two successive processes of signification in linguistic writing systems	123
Fig. II2-7	Goldwasser's dyadic model for Egyptian script, the sign	124
Fig. II2-8	The hieroglyphic sign $\bar{\text{A}}$ reconsidered as a Saussurean sign	124
Fig. II2-9	Goldwasser's dyadic model for Egyptian script, the system	125
Fig. II2-10	The Saussurean model applied to the mark $\bar{\text{L}}$	126
Fig. II2-11	The problem of accommodating referents in the dyadic model	126
Fig. II2-12	The problem of accommodating marks not related to script	127
Fig. II2-13	The Hjelmslevian stratified model of the sign	130
Fig. II2-14	The form-, substance- and purport-strata of a sign in content and expression	131
Fig. II2-15	The English and Welsh color spectra	132
Fig. II2-16	O.IFAO ONL 6536 analyzed as a Hjelmslevian sign	133
Fig. II2-17	Levels of taxonomic classification	134
Fig. II2-18	Taxonomic classification as a Hjelmslevian process	136
Fig. II2-19	The schema of syntagmatic and paradigmatic dimensions	138
Fig. II2-20	Workers on O.OVV 05 and O.Cairo JE 72491, paradigms	140
Fig. II2-21	Workers on O.ARTP 99-029 and O.IFAO ONL 6217, sub-paradigms	140
Fig. II2-22	Sub-paradigms as decisive in the interpretation of marks. O.DeM 10121	140
Fig. II2-23	The problem of accommodating referents in Hjelmslev's sign model	142
Fig. II2-24	Barthes' schema of denotation and connotation	146
Fig. II2-25	The cover of Paris-Match as a connotative sign	146

Fig. II2-26	Syntagmatic and paradigmatic axes: generators of denotation and connotation	148
Fig. II2-27	Book-cover demonstrating meaning created by the mass-media	150
Fig. II2-28	Press-photograph of John F. Kennedy analyzed as connotative sign	151
Fig. II2-29	Saint Bridget's Eucharistic Vision	152
Fig. II2-30	The message 'the king is victorious' in terms of syntagms and paradigms	154
Fig. II2-31	The generation of metaphor as a semiotic process	158
Fig. II2-32	Photographs evoking meaning by means of spatial and sequential relations	161
Fig. II2-33	Meaningful spatial relations on O.BM EA 50716	162
Fig. II2-34	Multiple layers of metaphor and metonymy in hieroglyphic signs	168
Fig. II2-35	Animalistic metaphor along the pictorial and phonetic trails in 	170
Fig. II2-36	The mark $\bar{\text{L}}$ as phonetic metaphor	171
Fig. II2-37	The mark A as phonetic animalistic metaphor	171
Fig. II2-38	Animalistic metonymic metaphor of C	172
Fig. II2-39	Metonymical processes in the mark H	173
Fig. II2-40	Metonymical processes in the mark A	173
Fig. II2-41	Perice's model of the sign	175
Fig. II2-42	Unlimited semiosis	177
Fig. II2-43	Successive semiosis of the mark $\bar{\text{L}}$ with <i>Jn(j)-hr-h^cw</i> (i) and (ii) as referents	178
Fig. II2-44	Successive semiosis of the mark $\bar{\text{L}}$ with <i>Knnz</i> (i) as referent	179
Fig. II2-45	Successive processes of semiosis of the mark $\bar{\text{L}}$ for four generations	180
Fig. II2-46	Peirce's typology of signs as metaphors and metonymies in a Venn-diagram	187
Fig. II2-47	Identity marks positioned in a Venn-diagram as metaphors and metonymies	189
Fig. II2-48	Synthetic model for the accommodation of the marks from Deir el-Medina	192
Fig. II2-49	$\bar{\text{L}}$ for <i>Jn(j)-hr-h^cw</i> (i) as phonetic metaphor or iconic symbol	193
Fig. II2-50	$\bar{\text{L}}$ for <i>Knnz</i> (i) as phonetic metaphoric metonymy or iconic symbolic index	194
Fig. II2-51	A for <i>Jmn-nht</i> (xii) as phonetic and animalistic metaphor	194
Fig. II2-52	Δ for <i>Pn-Mn-nfr</i> (i) as symbolic index	195
Fig. II2-53	H for <i>Jmn-nht</i> (v) as symbolic index	197
Fig. II2-54	A for <i>Jry-^cz</i> (i) as symbolic index	197
Fig. II2-55	A for <i>Nh.w-m-Mw.t</i> (vi) as symbolic index	199
Fig. II2-56	The semiosis of A for <i>Pz-md.w-nht</i> (i) as symbolic process?	200

Fig. II2-57	The semiosis of π^{H} for $Hkz-nfr$ along pictorial and geometric trail	201
Fig. II2-58	The semiosis of \mathcal{L} for H^c remains unknown	201
Fig. II2-59	The semiosis of \mathcal{A}	203
Fig. II2-60	The semiosis of β	203
Fig. II2-61	The semiosis of \mathcal{R} for $Nh.w-nfr$	204
Fig. II2-62	The semiosis of the marks in a Venn-diagram displaying their development	206
Fig. II3-1	The hexagon of cognitive sciences	211
Fig. II3-2	Model of lexicalization	212
Fig. II3-3	Interactive activation network of letter recognition	212
Fig. II3-4	MRI-scan and drawing of the human brain indicating main areas	214
Fig. II3-5	Dorsal view of the brain showing the medial longitudinal fissure	215
Fig. II3-6	Lateral view of the brain showing the lobes in the left hemisphere	215
Fig. II3-7	Projection map of vision, audition, the somatosensory and motor systems	215
Fig. II3-8	Brodmann's cytoarchitectonic areas in the brain as functional areas	216
Fig. II3-9	Activation of Broca's and Wernicke's areas with speech, hearing, thought	220
Fig. II3-10	The Wernicke-Geschwind model	220
Fig. II3-11	Subcortical areas that play a role in the processing of communication	222
Fig. II3-12	Maps of lesions of individual cases of Wernicke's and Broca's aphasia	223
Fig. II3-13	Example of a connectionist network	224
Fig. II3-14	Interactive activation connectionist network of letter identification	225
Fig. II3-15	Hierarchical tree-structure based on IS-A connections between semantic nodes	228
Fig. II3-16	Spreading activation network based on IS-A, HAS-A and other connections	228
Fig. II3-17	The mark $\tilde{\Gamma}$ as visual input in a spreading activation network	231
Fig. III1-1	Venn-diagram of visual communication, classifying formal appearance	239
Fig. III1-2	The transformation of marking systems toward the Roman alphabet	245
Fig. III1-3	Livestock marks used by the Lapps of Kautokeino	246
Fig. III1-4	Geometrical family mark followed for four generations	248
Fig. III1-5	Radial Venn-diagram accommodating main functions of marking systems	252
Fig. III1-6	Bronze branding iron for marking cattle, Thebes	254
Fig. III1-7	Sacrificial bull procession in the Great Court of Ramesses II, Luxor	254

Fig. III1-8	Building account of Our Lady's Church Zwolle with marks	256
Fig. III1-9	Bargain for a purchase of stone with mark	257
Fig. III1-10	Seal of the master mason Thomas Crump	257
Fig. III1-11	Cattle pass for the crossing of mules featuring their marks	257
Fig. III1-12	O.Florence 2628 and O.München 398: furniture and marks	261
Fig. III1-13	Votive marks on the pavement of the Hathor temple, Deir el-Medina	263
Fig. III1-14	Votive and pilgrims' marks on the chapel at Santa Tegra, A Guarda	263
Fig. III1-15	Votive and pilgrims' marks on the chapel at Senhora da Bonança, Póvoa	263
Fig. III1-16	Genealogical tree of the kin group Σ , Póvoa de Varzim	267
Fig. III1-17	<i>Diferenças</i> added to main kin marks	268
Fig. III2-18	Hypotheses on the relation between marking and linguistic writing systems	276

TABLES

Tab. I1-1	Marks from group I	8-9
Tab. I1-2	Marks from dynasty 18, group I	10
Tab. I1-3	Marks from dynasty 19, group I	16-17
Tab. I1-4	Marks from dynasty 20, group I	21-22
Tab. I1-5	Marks from group II	30
Tab. I2-1	Potmarks	45-49
Tab. I2-2	Builders' marks	67-69
Tab. I2-3	Quarry Marks	88
Tab. I2-4	Masons' marks from Amarna	90
Tab. II2-1	The generation of meaning in sign systems	164
Tab. II2-2	The modes of semiosis merged with the processes of metaphor and metonymy	186
Tab. II2-3	The marks integrated in the modes of semiosis and metaphor and metonymy	188
Tab. III1-1	Alphabetic identity marks conveying phonetic sounds of the owners' names	246

PLATES

Plate III1-1	World map with regional marking systems	279
Plate III1-2	Map with medieval European identity marks	281
