Curriculum Vitae

Jorien van Hoorn was born on March 21st 1988 in Vlaardingen, the Netherlands. She graduated high school from Stedelijk Gymnasium Schiedam in 2006. After graduation she obtained a BSc in Psychology at Leiden University (propaedeutic exam cum laude). In 2010 she started the Research MSc Developmental Psychology at Leiden University, combined with courses from the professional MSc Child & Adolescent Psychology. She obtained her Research MSc cum laude. In 2012 she received a 3-year NWO Research Talent Grant to fund her PhD in the Brain & Development Lab, under the supervision of Prof. Dr. Eveline Crone, Prof. Dr. Eric van Dijk and Prof Dr. Carolien Rieffe. During the start of her PhD Jorien also completed a clinical internship at the department of Neurodevelopmental Disorders of Curium-LUMC in Oegstgeest, where she obtained her diagnostics registration (Basis Aantekening voor Psycho Diagnostiek; BAPD). After completing her PhD research, Jorien started working as a postdoctoral research associate in September 2016, at UNC Chapel Hill in the Developmental Social Neuroscience Lab under supervision of Dr. Eva Telzer.
