Title: The role of incentive learning and cognitive regulation in sexual arousal

Issue Date: 2016-03-10

Acknowledgements

I would like to thank numerous colleagues, collaborators and students, without whom this dissertation would not have been possible. First, my supervisors and co-authors have provided inestimable inspiration, criticism, and guidance, and my thinking has been greatly honed by their feedback. Special thanks go to my supervisors **Stephanie Both**, **Philip Spinhoven** and **Baptist Trimbos**. Stephanie, thank you for your continual enthusiasm, for the thorough review of my papers, and for the critical comments on my work. You have set an example of excellence as a researcher and mentor. Philip, thank you for your support, suggestions, constructive criticism and guidance over the years. I would also like to thank my second promotor Baptist Trimbos. for his willingness in becoming my second promotor. I also would like to thank my co-authors **Ellen Laan** and **Walter Everaerd**. All of your guidance through this process; your ideas, and feedback have been absolutely invaluable. It was a great honour and pleasure working with you. I want to thank my direct colleagues from the department of Psychosomatic Gynaecology and Sexology; and my fellow graduate students and postdocs for their help and friendship, including: **Mirjam**, **Rinske**, **Willemijn** and the colleagues from EPP, FSW and LEO. I am grateful to **Nicole Oei**, for offering me the chance to conduct an amazing fMRI study. I also would like to thank the many undergraduate students who contributed to this research. Finally, I wish to thank my close friends and family. **Mam**, **Wim** and **Tijmen**, thank you for the support, love and encouragement. **Bruno**, thank you for being the most patient and reliable human guinea pig, for being my friend, for joining me in the triumphs, and most importantly for being a great person and partner. Lastly, I would like to thank my father, for infecting me with a critical eye and the need to know how things and how humans work. It was you who originally generated my love for science with visits to your laboratory and lessons on biology and physics. I still take your lessons with me, every day.

Curriculum Vitae

Mirte Brom was born on the 28th of May 1983 in Amstelveen, The Netherlands. In 2001 she obtained her VWO (high school) diploma at the Keizer Karel College in Amstelveen, The Netherlands. She studied Psychology at the University of Amsterdam and in 2011 she received her Master's degree (*Cum Laude*) in Clinical Neuropsychology. From 2011-2015 she worked on the PhD-project 'Memory for Sexual Reward' at Leiden University/ Leiden University Medical Centre. This thesis is the result of her work during that period. Mirte currently continues to work at the Leiden University Medical Centre as a Postdoctoral Researcher.
