Role of TNF- α and the NF- κ B pathway in drug-induced organ injuries

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van de Rector Magnificus, prof.mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 7 mei 2013 klokke 15.00 uur

door

Giulia Olivia Emilie Benedetti

geboren op 13 januari 1982 te Versailles, Frankrijk

PROMOTION COMITTEE

Promotor:

Prof. Dr. B. van de Water

Co-promotor:

Dr. M. de Graauw

Overige leden:

Prof. Dr. M. Danhof

LACDR, Leiden

Prof. Dr. J. Kuiper

LACDR, Leiden

Prof. Dr. S. Florquin

AMC, Amsterdam

Prof. Dr. C.van Kooten

LUMC, Leiden

Prof. Dr. J. van Delft

UM, Maastricht

This research was done at the Division of Toxicology of the Leiden/
Amsterdam Center for Drug Research, Leiden University, Leiden, The
Netherlands.

A ma famille

Table of contents

Chapter 1	9
Aim and scope of the thesis	
Chapter 2	17
An overview of toxicogenomics approaches to mechanistically understand and predict kidney and liver toxicity	
Chapter 3	67
A screen for apoptotic synergism between clinical relevant nephrotoxics and the cytokine TNF- α	
Chapter 4	87
TNF- α -mediated NF- κ B survival signalling impairment by cisplatin enhances JNK activation allowing synergistic apoptosis of renal proximal tubular cells	
Chapter 5	117
The NF- κ B family member RelB facilitates apoptosis of renal epithelial cells caused by cisplatin/TNF- α synergy by suppressing an EMT-like phenotypic switch	
Chapter 6	155
A siRNA screen for drug and TNF- α cytotoxicity synergy response	
Chapter 7	179
A live-cell imaging-based NF- κ B nuclear translocation RNAi screen identifies novel regulators of TNF- α -induced apoptosis through control of the (de)ubiquitinase A20	
Chapter 8	207
General discussion	
Appendix	229
Nederlandse samenvatting	231
English summary	233
Résumé français	235
List of abbreviations	237
<i>Curriculum vitae</i>	241
List of publications	242
