Contents

Chapter 1	Introduction, aim, and outline of this thesis	9
Methodological background		
Chapter 2	Interaction on an additive scale	15
Chapter 3	Reporting of interaction	23
Part 1: Pre-dialysis care		
Chapter 4	Associations between a family history of diabetes mellitus, cardiovascular disease, or kidney disease and disease progression in pre-dialysis patients	31
Chapter 5	Compliance with KDOQI and KDIGO guidelines for serum phosphorus and serum calcium in relation to disease progression in pre-dialysis patients	45
Part 2: From pre-dialysis care to the start of dialysis		
Chapter 6	Association between time of referral and survival in the first year of dialysis in diabetics and elderly	61
Chapter 7	The course of decline of renal function before and after the start of dialysis	75
Part 3: Dialysis therapy		
Chapter 8	Cardiovascular and noncardiovascular mortality among patients starting dialysis	87
Chapter 9	Summary and general discussion	103
Nederlandse samenvatting		119
Dankwoord		125
Publicatielijst		129
Curriculum vitae		133
