Role of fibroblast-like synoviocytes in cartilage degradation during rheumatoid arthritis

Tolboom, Tanja

Role of fibroblast-like synoviocytes in cartilage degradation during rheumatoid arthritis

Role of fibroblast-like synoviocytes in cartilage degradation during rheumatoid arthritis

PROEFSCHRIFT

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van de Rector Magnificus Dr. D. D. Breimer,
hoogleraar in de faculteit Wiskunde en
Natuurwetenschappen en die der Geneeskunde,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 20 oktober 2005
te klokke 15.15 uur

door

Tanja Annamaria Catharina van Viegen-Tolboom

geboren te Amersfoort in 1977

Promotiecommissie

Promotor: Prof. dr. T.W.J. Huizinga

Copromotor: Dr. R.E.M. T oes

Referent: Prof. Dr. C.L. Verweij (Vrije Universiteit Amsterdam)

Overige Leden: Prof. Dr. M.H.M. Not eborn
Prof. Dr. E.J.H.J. Wiertz

The studies presented in this thesis were performed in Leiden at the Department of
Rheumatology of the Leiden University Medical Center.

ISBN 909019701x

Contents

1. Introduction **9**

2. In vitro matrigel fibroblast invasion assay **59**

3. The invasiveness of fibroblast-like synoviocytes is an individual patien t characteristic associated with the rate of joint destruction in patients with rheumatoid arthritis **71**

4. Invasive properties of fibroblast-like synoviocytes: correlation with growth characteristics and expression of MMP-1, MMP-3, and MMP-10 **83**

5. Correlation between expression of CD44 splice variant v8-v9 and invasiveness of fibroblast-like synoviocytes in an in vitro system **101**

6. Fibroblast-like synoviocytes from rheumatoid arthritis patients express less FLICE-inhibitory protein than fibroblast-like synoviocytes from trauma patients **117**

7. Are the synoviocytes in the lining layer specialized epithelial cells that undergo a transition to mesenchymal cells in rheumatoid arthritis? **123**

8. Fibroblast-like synoviocytes from patients with rheumatoid arthritis are more sensitive to apoptosis induced by the viral protein, apoptin, than fibroblast-like syn oviocytes from trauma patients **137**

9. Summary and discussion **151**

10. Nederlandse samenvatting **161**

Appendix

List of abbreviations **17** **5**
List of publications **179**
Curriculum vitae **181**
