**Optimal Timing of Pulmonary Valve
Replacement in Tetralogy of Fallot**

Optimal Timing of Pulmonary Valve Replacement in Tetralogy of Fallot

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden
op gezag van Rector Magnificus prof. mr. P.F. van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op
woensdag 17 december 2008
klokke 13.45 uur

door

Alexander van Straten

geboren te Alphen aan den Rijn
in 1976

Promotiecommissie

Promotores: Prof. Dr. A. de Roos
Prof. Dr. M.G. Hazekamp

Co-promotor: Dr. H.W. Vliegen

Referent: Prof. Dr. C.B. Higgins
University of California, San Francisco, USA

Overige leden: Dr. N.A. Blom
Dr. L.J.M. Kroft
Prof. Dr. W.A. Helbing
Erasmus Universiteit Rotterdam

The research described in this thesis was carried out at the department of Radiology (head: Prof. dr. J.L. Bloem) of the Leiden University Medical Center.

Publication of this thesis was financially supported by Foundation Imago Oegstgeest, Division of Image Processing (LKEB) Leiden, Medis medical systems bv and Guerbet Nederland B.V.

Contents

Chapter	Page
1	Introduction and outline of the study 9
2	Right ventricular function late after total repair of tetralogy of Fallot 15 <i>Eur Radiol. 2005;15:702-7 and Encyclopedic Reference of Imaging, Springer 2007</i>
3	Serial assessment of pulmonary regurgitation and right ventricular function in tetralogy of Fallot: time course depending on surgical technique 33 <i>JACC submitted</i>
4	Preoperative thresholds for pulmonary valve replacement in patients with corrected tetralogy of Fallot using cardiovascular magnetic resonance..... 49 <i>Circulation. 2007;116:545-51</i>
5	Magnetic resonance imaging to assess the hemodynamic effects of pulmonary valve replacement in adults late after repair of tetralogy of Fallot..... 71 <i>Circulation. 2002;106:1703-7</i>
6	Right ventricular function after pulmonary valve replacement in patients with tetralogy of Fallot. 87 <i>Radiology. 2004;233:824-9</i>
7	Time course of diastolic and systolic function improvement after pulmonary valve replacement in adult patients with tetralogy of Fallot.....107 <i>J Am Coll Cardiol. 2005;46:1559-64</i>
8	Reduction of QRS duration after pulmonary valve replacement in adult Fallot patients is related to reduction of right ventricular volume..... 125 <i>Eur Heart J. 2005;26:928-32</i>
9	Summary and conclusions.....139 Samenvatting en conclusies 143 Curriculum vitae 146 Publications 147 Presentations 150
