Imaging the preterm infant's brain

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus Prof. Mr. P.F. van der Heijden,
volgens besluit van het College voor Promoties
te verdediging op woensdag 14 oktober 2009
klokke 15.00 uur

door

Lara Maria Leijser

geboren te Goirle
in 1978

Promotiecommissie

Promotor: Prof. Dr. F.J. Walther

Co-promotor: Dr. G. van Wezel-Meijler

Overige leden: Dr. F.M. Cowan (Hammersmith Hospital, Londen, Engeland)
Prof. Dr. M.A. van Buchem
Prof. Dr. H.A. Delemarre-van de Waal

Table of Contents

Part I	Introduction	
Chapter 1	General introduction and Outline of the thesis	9
Part II	Neuro-imaging techniques	
Chapter 2	Using cerebral ultrasound effectively in the newborn infant <i>Early Hum Dev 2006; 82(12): 827-835</i>	39
Chapter 3	Neonatal cranial ultrasonography: how to optimize its performance <i>Early Hum Dev 2009; 85(2): 93-99</i>	63
Chapter 4	Magnetic resonance imaging of the brain in newborn infants: practical aspects <i>Early Hum Dev 2009; 85(2): 85-92</i>	81
Part III	Brain imaging findings in very preterm infants throughout the neonatal period	
Chapter 5	Brain imaging findings in very preterm infants throughout the neonatal period: Part I. Incidences and evolution of lesions, comparison between ultrasound and MRI <i>Early Hum Dev 2009; 85(2): 101-109</i>	109
Chapter 6	Brain imaging findings in very preterm infants throughout the neonatal period: Part II. Relation with perinatal clinical data <i>Early Hum Dev 2009; 85(2): 111-115</i>	133
Part IV	White matter	
Chapter 7	Frequently encountered cranial ultrasound features in the white matter of preterm infants: correlation with MRI <i>Eur J Paediatr Neurol 2009; 13(4): 317-326</i>	153

Chapter 8	Comparing brain white matter on sequential cranial ultrasound and MRI in very preterm infants <i>Neuroradiology 2008; 50(9): 799-811</i>	175
Chapter 9	Does sequential cranial ultrasound predict white matter injury on MRI in very preterm infants? <i>Submitted for publication</i>	201
Part V	Deep grey matter	
Chapter 10	Hyperechogenicity of the thalamus and basal ganglia in very preterm infants: radiological findings and short-term neurological outcome <i>Neuropediatrics 2004; 35(5): 283-289</i>	225
Chapter 11	Imaging of the basal ganglia and thalami in very preterm infants <i>Submitted for publication</i>	243
Chapter 12	Lenticulostriate vasculopathy in very preterm infants <i>Arch Dis Child Fetal Neonatal Ed, in press</i>	265
Part VI	Discussion	
Chapter 13	General discussion and Future perspectives	283
Chapter 14	Summary	305
Chapter 15	Summary in Dutch (Samenvatting)	315
	Curriculum Vitae	327
	List of publications	329
	List of abbreviations	333
	Authors and affiliations	335
