Proefschrift

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van Rector Magnificus prof.mr. P.F. van der Heijden,

volgens besluit van het College voor Promoties

te verdedigen op woensdag 14 januari 2009

klokke 15:00 uur

door

Ayman Khairy Mohamed Hassan

Geboren te Assiut, Egypt

1975

Promotiecommissie

Promoters: Prof. dr. J.W.Jukema
Prof. dr. M.J.Schalij

Referent: Prof. dr. A.H. Zwinderman
(Academic Medical centre, University of Amsterdam, Amsterdam)

Overige leden: Prof. dr. A. van der Laarse
Prof. dr. E.E. van der Wall
Dr. D.E. Atsma
Prof. dr. R. Klautz

**TO THE SOUL OF MY PRECIOUS MOTHER
TO MY GREAT FATHER AND MY DEAR
SISTER
TO MY LITTLE FAMILY.....,
MY LOVELY WIFE MONA
MY SON MOSTAFA
AND MY DAUGHTER SALWA**

TABLE OF CONTENTS

Chapter 1	General introduction and outline of the thesis	9
Chapter 2	In-ambulance abciximab administration in STEMI patients prior to primary PCI is associated with smaller infarct size, improved LV function and lower incidence of heart failure: Results from the Leiden MISSION! acute myocardial infarction treatment optimization program	27
Chapter 3	Incidence, patient's characteristics and predictors of aborted myocardial infarction in patients undergoing primary PCI: prospective study comparing pre- and in-hospital abciximab pretreatment	43
Chapter 4	Aborted myocardial infarction in patients undergoing primary PCI: long term outcomes	59
Chapter 5	Usefulness of Peak Troponin-T to Predict Infarct Size and Long-Term Outcome in Patients with First Acute Myocardial Infarction after Primary Percutaneous Coronary Intervention	71
Chapter 6	The risk of late acquired stent malapposition is higher after drug-eluting stent compared to bare-metal stent implantation and is associated with late stent thrombosis: Meta-analysis and systematic review	87
Chapter 7	Summary, conclusions and Future perspectives	103
Chapter 8	Samenvatting en conclusie	109
	Acknowledgments	115
	Curriculum vitae	117
