Table of contents

Chapter 1	General introduction	8
PART I		
Chapter 2	Radiotherapy for preventing intimal hyperplasia in vascular surgery: an overview	24
Chapter 3	Endovascular brachytherapy for the prevention of restenosis after femoro-popliteal angioplasty: results of the VARA trial	36
Chapter 4	External beam radiation therapy to prevent anastomotic intimal hyperplasia in prosthetic arteriovenous fistulas: results of a randomized trial	50
PART II		
Chapter 5	Vascular growth in ischemic limbs: a review of mechanisms and possible therapeutic stimulation	62
Chapter 6	Intramuscular or combined intramuscular/intra-arterial administration of bone marrow mononuclear cells: a clinical trial in patients with advanced limb ischemia	88
Chapter 7	Limited value of digital subtraction angiography in the evaluation of cell-based therapy in patients with limb ischemia	104
Chapter 8	A comparison of the Doppler-derived maximal systolic acceleration versus the ankle-brachial pressure index for detecting and quantifying peripheral arterial occlusive disease in diabetic patients.	118
ADDENDUM		
Chapter 9	Summary and perspectives	132
Chapter 10	Summary in Dutch	144
Curriculum vitae		159
