Prof. Dr. J.B.M.Z. Trimbos

Co-promotor: Dr. M.M. ter Kuile

Referent: Dr. K. Bergmark (Karolinska University Hospital, Stockholm, Sweden)

Lid: Prof. Dr. G.J. Fleuren

Contents

Chapter 1	General introduction	7
Chapter 2	Postoperative radiation therapy improves prognosis in patients with adverse risk factors in localized, early-stage cervical cancer: a retrospective comparative study. (<i>Int J Gynecol Cancer</i> 2006; 16:1112-1118)	25
Chapter 3	The number of pelvic lymph nodes in the quality control and prognosis of radical hysterectomy for the treatment of cervical cancer. (<i>Eur J Surg Oncol</i> 2007; 33:216-221)	39
Chapter 4	An individual prediction of the future (disease free) survival of patients with a history of early stage cervical cancer; multi-state model. (<i>Int J Gynecol Cancer</i> 2007; in press)	53
Chapter 5	The Gynaecologic Leiden Questionnaire: psychometric properties of a self-report questionnaire of sexual function and vaginal changes for gynaecological cancer. (Submitted for publication)	67
Chapter 6	An observational longitudinal study to evaluate miction, defecation and sexual function after radical hysterectomy with pelvic lymphadenectomy for early stage cervical cancer. (<i>Int J Gynecol Cancer</i> 2006; 16:1119-1129)	85
Chapter 7	Vaginal blood flow after radical hysterectomy with and without nerve-sparing. A preliminary report. (<i>Int J Gynecol Cancer</i> 2007; in press)	103
Chapter 8	Summary, discussion and future perspectives	119
Chapter 9	Nederlandse samenvatting	135
	Abbreviations	147
	Colour figures	149
	Curriculum vitae	155
	Dankwoord	157
	Publications	159
