Imaging Von Willebrand Factor during storage and upon secretion

by light and electron microscopy

The work described in this thesis was financially supported by the Nederlandse Organisatie voor Wetenschappelijk Onderzoek (NWO, grant 91209006) and was performed at the Department of Molecular Cell Biology of the Leiden University Medical Center, the Netherlands.

The printing of this thesis was financially supported by the *Stichting tot Bevordering van de Electronenmicroscopie in Nederland* (SEN).
