Curriculum Vitae

Sietske Riemersma was born on July 16th, 1970 in Hengelo (ov.). She graduated from the Thomas a Kempis College in Zwolle in 1988. From September 1988 until February 1997 she studied medicine at the University of Maastricht. From September 1993 until January 1995 she was a graduate student at Exeter College and worked as a research student in the Neurosciences Group at the Institute of Molecular Science in Oxford, United Kingdom, under the supervision of Dr. Angela Vincent. In January 1995 the Master of Science degree at the University of Oxford was obtained by defending the thesis: *Effects of antibodies on acetylcholine receptor function in the human cell line TE671*. The work presented in this thesis was performed at the Department of Pathology, Leiden University Medical Center, under the supervision of Prof. Dr. Philip Kluin and Dr. Ed Schuurung from February 1997 until March 2005. From September 1999 until March 2005 she was a resident in pathology at the same department under the supervision of Prof. Dr. Gert-Jan Fleuren. She started working as a pathologist at the Laboratorium Pathologie Oost Nederland, Enschede in march 2005.
