A Study into Genes Encoding Longevity in Humans

Proefschrift

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,

op gezag van Rector Magnificus prof.mr. P.F. van der Heijden,

volgens besluit van het College voor Promoties

te verdedigen op dinsdag 4 december 2007

klokke 15.00 uur

door

Maris Kuningas

geboren te Kuressaare (Estland)

in 1979

Promotiecommissie

Promotores: Prof. dr. R.G.J. Westendorp
Prof. dr. P.E. Slagboom

Copromotor: Dr. ir. D. van Heemst

Referent: Prof. dr. A. Metspalu (Tartu University, Estonia)

Overige leden: Prof. dr. E.R. de Kloet
Prof. dr. R.R. Frants

This work was supported by an Innovative Orientated Research (IOP) grant from the Dutch Ministry of Economic Affairs (grant number IGE010114), by the Netherlands Genomics Initiative/Netherlands Organization for Scientific Research (NWO) (grant number 911-03-016) and by the Centre for Medical Systems Biology (CMSB), which is a centre of excellence approved by the NWO. Maris Kuningas was supported by a Marie Curie Fellowship of the European Community program EUROGENDIS “The Genetic Basis of Disease” (contract number QLGA-GH-00-60005-59).

Printing of this thesis was financially supported by Unilever and Numico B.V.

Contents

CHAPTER 1	General Introduction	7
CHAPTER 2	Haplotypes in the Human <i>FOXO1a</i> and <i>FOXO3a</i> Genes; Impact on Disease and Mortality at Old Age	19
	<i>European Journal of Human Genetics (2007) 15, 294–301</i>	
CHAPTER 3	The Liver X Receptor Alpha Associates with Human Lifespan	35
	<i>The Journals of Gerontology Series A: Biological Sciences and Medical Sciences (2007) 62A, 343–349</i>	
CHAPTER 4	<i>VDR</i> Gene Variants Associate with Cognitive Function and Depressive Symptoms in Old Age	51
	<i>Neurobiology of Ageing (in press)</i>	
CHAPTER 5	<i>SIRT1</i> Gene, Age-Related Diseases and Mortality. The Leiden 85-Plus Study	67
	<i>The Journals of Gerontology Series A: Biological Sciences and Medical Sciences (2007) 62, 960–965</i>	
CHAPTER 6	Mental Performance in Old Age Dependent on Cortisol and Genetic Variance in the Mineralocorticoid- and Glucocorticoid Receptors	83
	<i>Neuropsychopharmacology (2007) 32, 1295–1301</i>	
CHAPTER 7	Genetic Variants in the Glucocorticoid Receptor Gene (<i>NR3C1</i>) and Cardiovascular Disease Risk. The Leiden 85-Plus Study	97
	<i>Biogerontology (2006) 7, 231–238</i>	
CHAPTER 8	Impact of Genetic Variations in the <i>WRN</i> Gene on Age Related Pathologies and Mortality	111
	<i>Mechanisms of Ageing and Development (2006) 127, 307–313</i>	
CHAPTER 9	Genes Encoding Longevity; from Model Organisms to Man	127
	<i>Submitted for publication</i>	
CHAPTER 10	Samenvatting/Summary in Dutch	149
Acknowledgements	153	
List of publications	154	
<i>Curriculum vitae</i>	155
