Unravelling the Past and Prospects for the Future

PROEFSCHRIFT

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof.mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op woensdag 18 maart 2015
klokke 13:45 uur

door

Laura Diana Bertola

geboren te Delft
in 1984

Promotor: Prof. dr. Geert R. de Snoo (Leiden University)

Co-promotores: Prof. dr. ir. Hans H. de Jongh (Leiden University / Antwerp University)
Dr. Klaas Vrieling (Leiden University)

Overige leden: Prof. dr. Michael Hofreiter (University of Potsdam)
Prof. dr. Herbert H.T. Prins (Wageningen University)
Dr. Ross Barnett (University of Copenhagen)

1	General Introduction	7
2	Genetic diversity, evolutionary history and implications for conservation of the lion (<i>Panthera leo</i>) in West and Central Africa	29
3	Autosomal and mtDNA markers reveal concordant phylogenetic patterns of lion populations over the entire geographic range	55
4	Phylogeographic patterns in Africa and high resolution delineation of genetic clades in the African lion	83
5	SNP discovery and phylogenetic analyses across ten populations of lions reveals a more complex evolutionary history	113
6	General Discussion	133
	List of abbreviations	155
	Summary	157
	Samenvatting	161
	Résumé	165
	Acknowledgements	171
	Curriculum Vitae	173
	Publications	175

The investigations were supported by the Division for Earth and Life Sciences (ALW) with financial aid from the Netherlands Organization for Scientific Research (NWO) (project no. 820.01.002).

This research was conducted under the auspices of the Graduate School for Socio-Economic and Natural Sciences of the Environment (SENSE).
