geboren te Woerden in 1980

Promotiecommissie:

Promotor:

Prof. Dr. M. Yazdanbakhsh

Copromotores:

Dr. T. Supali (University of Indonesia, Jakarta, Indonesia)

Dr. H.H. Smits

Overige leden:

Prof. Dr. J.T. van Dissel

Prof. Dr. B.O. Roep

Prof. Dr. C. Taube

Prof. Dr. A.M. Elliott (London School of Hygiene and Tropical Medicine, London, UK)

Prof. Dr. H. A. Verbrugh (Erasmus MC, Rotterdam)

Chapter 1	General introduction	7
Chapter 2	<i>Loa loa</i> infection and the balance of Th17 and regulatory T cells	23
Chapter 3	Asymptomatic plasmodial infection is associated with increased TNFR _{II} -expressing Tregs and suppressed type 2 immune responses	43
Chapter 4	Regulatory T cells in human lymphatic filariasis: stronger functional activity in microfilareemics	61
Chapter 5	Regulatory T cells in human geohelminth infection suppress immune responses to BCG and <i>Plasmodium falciparum</i>	81
Chapter 6	Three-monthly albendazole treatment alleviates geohelminth-induced immune hyporesponsiveness; results of a double blind placebo-controlled household-randomized trial	93
Chapter 7	The effect of three-monthly albendazole treatment on malarial parasitemia and allergy: a household-based cluster-randomized, double-blind, placebo-controlled trial	115
Chapter 8	Global worming or deworming? Epidemiological, immunological and clinical perspectives	145
Chapter 9	Summarizing discussion	175
Addendum	Nederlandse samenvatting voor niet-ingewijden	191
	List of publications	197
	Curriculum Vitae	199
	Acknowledgments	201
