CONTENTS

Chapter 1	p. 9
General introduction	
Chapter 2	p. 23
Meta-analysis of neoadjuvant chemotherapy	
Chapter 3	p. 39
Predictive role of tumor-suppressor gene p53	
Chapter 4	p. 55
Predictive and prognostic role of estrogen receptor in young women	
Chapter 5	p. 69
Prognostic role of molecular subtype in young women	
Chapter 6	p. 87
Prognostic role of breast cancer stem cell marker ALDH1	
Chapter 7	p. 101
Isoforms of tissue factor and breast cancer stem cells	
Chapter 8	p. 121
Validation of intraoperative fluorescence camera system	
Chapter 9	p. 137
Intraoperative detection of breast tumors using protease-sensing NIR probe	
Chapter 10	p. 157
Intraoperative detection of breast tumors using antibody-based NIR probe	
Chapter 11	p. 175
Optimizing NIR sentinel lymph node mapping	
Chapter 12	p. 191
Randomized comparison of NIR fluorescent lymphatic tracers	
Chapter 13	p. 205
Summary and general discussion	
Chapter 14	p. 217
Nederlandse samenvatting	

Improving breast cancer outcome
by preoperative systemic therapy
and image-guided surgery
