Proefschrift

ter verkrijging van  
de graad van Doctor aan de Universiteit Leiden,  
op gezag van de Rector Magnificus Prof. mr. P.F. van der Heijden,  
volgens besluit van het college voor Promoties  
te verdedigen op woensdag 26 oktober 2011  
klokke 16.15 uur

door

Jan Sven David Mieog

geboren te Monster  
in 1980

## **Promotiecommissie**

Promotor            Prof. dr. C.J.H. van de Velde

Co-promotor      Dr. A.L. Vahrmeijer

Overige leden    Prof. dr. C.W.G.M. Löwik  
                         Prof. dr. J.W.R. Nortier  
                         Prof. dr. M.J. van de Vijver (Universiteit van Amsterdam)  
                         Dr. P.J.K. Kuppen  
                         Dr. G.J. Liefers  
                         Dr. V.T.H.B.M. Smit

The author of this thesis is a MD-medical research trainee funded by the The Netherlands Organisation for Health Research and Development (grant nr. 92003526). The research described in this thesis was financially supported by the Center for Translational Molecular Medicine (CTMM, DeCoDe and MUSIS projects), the Dutch Cancer Society (KWF 2007-3968 and UL 2010-4732), and the Sacha Swarttouw-Hijmans Foundation.

Financial support by J.E. Jurriaanse Foundation, Pfizer, Novartis, Roche, Sanofi-Aventis, GSK, ChipSoft, Caliper Life Sciences, LI-COR Biosciences, PerkinElmer and Percuro for the publication of this thesis is gratefully acknowledged.

# CONTENTS

Chapter 1	General introduction and outline of thesis	9
<b>Part I Preoperative systemic therapy</b>		
<b>Part IA Preoperative therapy and personalized treatment</b>		
Chapter 2	Neoadjuvant chemotherapy for operable breast cancer: a Cochrane systematic review	23
Chapter 3	Tumor response to preoperative anthracycline-based chemotherapy in operable breast cancer: the predictive role of p53 expression	39
Chapter 4	Efficacy of adjuvant chemotherapy according to hormone receptor status in young patients with breast cancer: a pooled analysis	55
Chapter 5	Impact of established prognostic factors and molecular subtype in very young breast cancer patients: pooled analysis of four EORTC randomized controlled trials	69
<b>Part IB Resistance to therapy and cancer stem cells</b>		
Chapter 6	Age interactions in the prognostic role of the cancer stem cell marker aldehyde dehydrogenase-1 in breast cancer	87
Chapter 7	Alternatively spliced and full-length tissue factor reveal a non-identical relationship to clinicopathological parameters in a large cohort of human breast cancer	101
<b>Part II Image-guided surgery</b>		
<b>Part IIA Intraoperative tumor detection</b>		
Chapter 8	Novel intraoperative near-infrared fluorescence camera system for optical image-guided cancer surgery	121
Chapter 9	Image-guided tumor resection using real-time near-infrared fluorescence in a syngeneic rat model of primary breast cancer	137
Chapter 10	Antibody-based intraoperative near-infrared fluorescence imaging of primary breast cancer in a syngeneic rat model	157

**Part IIB Sentinel lymph node mapping**

Chapter 11	Towards optimization of imaging system and lymphatic tracer for near-infrared fluorescent sentinel lymph node mapping in breast cancer	175
Chapter 12	Randomized, double-blind comparison of indocyanine green with or without albumin premixing for near-infrared fluorescence imaging of sentinel lymph nodes in breast cancer patients	191
Chapter 13	Summary and general discussion	205
Chapter 14	Nederlandse samenvatting	217
	List of publications	223
	Curriculum Vitae	227
	Dankwoord	229
