STUDIES INTO THE MECHANISM OF ARSENIC-INDUCED NEUROTOXICITY

Proefschrift

ter verkrijgen van de graad van Doctor
aan de Universiteit Leiden,
op gezag van de Rector Magnificus
Prof. Mr. P.F. van der Heijden,
volgens besluit van
het college voor promoties
te verdedigen op 14 februari 2008
klokke 13.45 uur door

Ali Vahidnia

geboren te Amman, Jordanië
in 1972

Promotiecommissie

Promotor: Prof. Dr. FA de Wolff

Co-promotor: Dr. GB van der Voet

Referenten: Prof. Dr. A.A. van Zeeland
Prof. Dr. JA Centeno, Armed Forces Institute of Pathology,
Washington DC

Overige leden: Prof. Dr. JP Groten, Wageningen Universiteit
Prof. Dr. GJ Mulder
Prof. Dr. LHF Mullenders
Dr. HPM Vijverberg, Universiteit Utrecht
Dr. J van Pelt

The research presented in this thesis was performed in the Toxicology Laboratory of department of Clinical Pharmacy and Toxicology and in the Department of Clinical Chemistry at the Leiden University Medical Center, Leiden, The Netherlands.

Niets uit deze uitgave mag worden verveelvoudigd en/of openbaar gemaakt zonder voorafgaande schriftelijke toestemming van de auteur. No part of this thesis may be reproduced in any form without written permission from the author.

The publication of this thesis was financially supported by the AZL Onderzoeks- en Ontwikkelingskrediet Apotheek and the J.E. Juriaanse Stichting.
