## Curriculum Vitae

The writer of this thesis was born on 14 July 1971 in Nuremberg (Germany). There, he obtained his university entrance diploma (abitur) in 1991. From 1991-1992 he studied physics at the Friedrich-Alexander University Erlangen-Nuremberg. In 1992, he begun his studies in medicine at the Friedrich-Alexander University Erlangen-Nuremberg and did clinical internships at the University of Vienna (Austria) and in Birmingham (Great Britain). In 1998, he finalized his studies in medicine with the state examination in Medicine. In 2000 he obtained the full license to practice medicine (approbation). In 2001, he obtained the doctoral degree (Dr. med.) at the Institute of Pathology, Friedrich-Alexander University Erlangen-Nuremberg with *summa cum laude*. In 1999 he received a stipend of the Dr. Wilhelm-Kempe-Foundation of the German Red Cross (NSOB) and in 2001 he received the Dissertation-Award of the Friedrich-Alexander University Erlangen-Nuremberg (Germany). From 1999-2002 he performed his specialist training in internal medicine, hematology and oncology at the Dept. Hematology and Oncology, Hannover Medical School (Germany). In 2002 he received a postdoctoral fellowship from the the German Research Society (DFG) to perform studies at the transplantation immunology section of Prof. Dr. Els Goulmy, Dept. of Immunohematology and Blood Transfusion, Leiden University Medical Center (Head: Prof. Dr. C.J.M. Melief and Prof. Dr. W. Fibbe). During his stay until November 2010, he received additional funding from the Dutch Cancer Foundation and from the Sander Foundation (Germany) and performed the research described in this thesis under the supervision of Prof. Dr. Els Goulmy. Since December 2010, he is continuing his specialist training at the Dept. Hematology and Oncology, Hannover Medical School (Germany).
