**Marian Christina van Groningen**

geboren te Middelharnis

in 1977

## Promotiecommissie

Promotoren: Prof. Dr. J.A. Bruijn  
Prof. Dr. J.W. de Fijter

Co-promotor: Dr. M. Eikmans

Referent: Prof. Dr. Y. Vanrenterghem,  
(Katholieke Universiteit Leuven)

Overige leden: Prof. Dr. F.H.J. Claas  
Prof. Dr. A.J. Rabelink

The studies described in this thesis were performed at the Department of Pathology (Head; Prof. Dr. G.J. Fleuren), Leiden University Medical Center, Leiden, The Netherlands.

The printing of this thesis was financially supported by:

## Contents

- Chapter 1: General introduction
- Chapter 2: Improvement of extraction and processing of RNA from renal biopsies  
*Kidney International 65(1):97-105, 2004*
- Chapter 3: Expression of surfactant protein-C, S100A8, S100A9, and B cell markers in renal allografts: investigation of the prognostic value  
*Journal of the American Society of Nephrology 16(12):3771-86, 2005*
- Chapter 4: Molecular comparison of calcineurin inhibitor-induced fibrogenic responses in protocol renal transplant biopsies  
*Journal of the American Society of Nephrology 17(3):881-8, 2006*
- Chapter 5: Epithelial to mesenchymal transition in early renal transplant fibrosis  
*Submitted for publication*
- Chapter 6: Relatively high mRNA expression of EMT related markers in renal allograft protocol biopsies is associated with favorable outcome  
*Submitted for publication*
- Chapter 7: Summary and General Discussion
- Nederlandse Samenvatting
- Curriculum Vitae
- List of publications
- Appendix: Colour figures
- 

*Lord grant me the Serenity  
to accept the things  
I cannot change,  
  
the Courage to change  
the things I can,  
  
and the Wisdom  
to know the difference.*
