AFTER HAEMATOPOIETIC STEM CELL
TRANSPLANTATION**

PROEFSCHRIFT

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van de Rector Magnificus Dr. D.D. Breimer,
hoogleraar in de faculteit der Wiskunde en
Natuurwetenschappen en die der Geneeskunde,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 27 april 2006
klokke 16:15 uur

door

BOUDEWIJN BAKKER

geboren te Dubbeldam

in 1967

PROMOTIECOMMISSIE

Promotores: Prof. dr. J.M. Wit
Em. prof. dr. J.M. Vossen

Co-promotor: Dr. W. Oostdijk

Referent: Prof. dr. H.A. Delemarre-van de Waal, Vrije Universiteit Amsterdam

Overige leden: Prof. dr. S.L.S. Drop, Erasmus Universiteit Rotterdam
Prof. dr. R.M. Egeler
Prof. dr. J.A. Romijn

The Research presented in this thesis was financially supported by the Netherlands' Organization for Scientific Research (NWO / ZonMw).

For publication of this thesis, financial support from Ferring Geneesmiddelen B.V., Ipsen Farmaceutica B.V., Novo Nordisk Farma B.V., Pfizer B.V., Eli Lilly Nederland B.V. and ZonMw is gratefully acknowledged.

TABLE OF CONTENTS

Chapter 1	General introduction	1
Chapter 2	Effects of total-body irradiation on growth, thyroid and pituitary gland in rhesus monkeys. <i>Radiotherapy and Oncology</i> 1999;51:187-192	13
Chapter 3	Effect of X-irradiation on growth and the expression of parathyroid hormone-related peptide and Indian hedgehog in the tibial growth plate of the rat. <i>Hormone Research</i> 2003;59:35-41	27
Chapter 4	Long term consequences of allogeneic haematopoietic stem cell transplantation during childhood: results of a cross-sectional single-centre evaluation	41
Chapter 5	Final height of patients who underwent bone marrow transplantation for haematological disorders during childhood: a study by the working party for late effects-EBMT. <i>Blood</i> 1999;93:4109-4115	55
Chapter 6	Pubertal development and growth after total-body irradiation and bone marrow transplantation for haematological malignancies. <i>European Journal of Pediatrics</i> 2000;159:31-37	73
Chapter 7	Patterns of growth and body proportions after total-body irradiation and haematopoietic stem cell transplantation during childhood. <i>Pediatric Research</i> 2006;59:259-264	91
Chapter 8	Growth hormone (GH) secretion and response to GH therapy after total-body irradiation and haematopoietic stem cell transplantation during childhood. (<i>submitted</i>)	111
Chapter 9	Disturbances of growth and endocrine function after busulphan-based conditioning for haematopoietic stem cell transplantation during infancy and childhood. <i>Bone Marrow Transplantation</i> 2004;33:1049-1056	129
Chapter 10	Quality of life in adults following bone marrow transplantation during childhood. <i>Bone Marrow Transplantation</i> 2004;33:329-336	149
Chapter 11	General discussion	169
Chapter 12	Summary	191
Chapter 13	Samenvatting	197
	Curriculum Vitae	203
	Publications	205
