**Author:** Berg, Yascha Wilfred van den  
**Title:** Tissue factor isoforms and cancer  
**Issue Date:** 2013-10-08

# **Tissue Factor Isoforms and Cancer**

# **Tissue Factor Isoforms and Cancer**

Proefschrift

ter verkrijging van

de graad van Doctor aan de Univeriteit Leiden,

op gezag van Rector Magnificus prof. mr. C.J.J.M. Stolker,

volgens besluit van het College voor Promoties

te verdedigen op dinsdag 8 oktober 2013

klokke 15:00 uur

door

**Yascha Wilfred van den Berg**

geboren te Leidschendam

in 1982

## **Promotiecommissie**

Promotores: Prof. dr. P.H. Reitsma  
Prof. dr. S. Osanto

Copromotor: Dr. H.H. Versteeg

Overige leden: Prof. dr. H.R. Büller (Universiteit van Amsterdam)  
Prof. dr. C.J.H. van de Velde  
Prof. dr. M.J. Goumans  
Prof. dr. A.J. van Zonneveld

The research described in this thesis was financially supported a Sanofi-Aventis/ISTH fellowship. The research was performed at the Eindhoven Laboratory for Experimental Vascular Medicine, Department of Thrombosis and Hemostasis, Leiden University Medical Center, Leiden, The Netherlands.

Financial support by the Dutch Hearth Foundation for publication of this thesis is gratefully acknowledged.

Additional support was kindly provided by Roche Nederland B.V., Novo Nordisk B.V., ChipSoft B.V., GlaxoSmithKline B.V. and Greiner Bio-One B.V..

## Contents

Chapter 1 - General introduction and outline of the thesis	9
Chapter 2 - Alternatively spliced tissue factor induces angiogenesis through integrin ligation	15
Chapter 3 - Alternatively spliced tissue factor: a crippled protein in coagulation or a key player in non-hemostatic processes?	41
Chapter 4 - Splice variants of Tissue Factor promote monocyte-endothelial interactions by triggering the expression of cell adhesion molecules via integrin ligation	55
Chapter 5 - Non-Proteolytic Properties of Murine Alternatively Spliced Tissue Factor: Implications for Integrin-Mediated Signaling in Murine Models	81
Chapter 6 - Alternatively spliced and full-length tissue factor have dissimilar properties in breast cancer	101
Chapter 7 - Ectopic factor VII expression is an indicator of poor survival in young women with breast cancer	119
Chapter 8 - Disulfide switching: a conserved mechanism in Tissue Factor decryption?	135
Chapter 9 - The relationship between tissue factor and cancer progression: insights from bench and bedside	141
Chapter 10 - General Discussion and Summary	163
Nederlandse discussie en samenvatting	177
Publications	189
Dankwoord	191
Curriculum Vitae	193
