Author: Wink, Steven

Title: Systems microscopy to unravel cellular stress response signalling in drug induced liver injury

Issue Date: 2015-12-22

**Systems microscopy to unravel
cellular stress response signalling
in drug induced liver injury**

Steven Wink

Systems microscopy to unravel cellular stress response signalling in drug induced liver injury

Steven Wink

December 2015

Cover design: Steven Wink

Printing: CPI/Wöhrmann Print Service, Zuthpen

ISBN: 978-94-6203-963-6

Systems microscopy to unravel cellular stress response signalling in drug induced liver injury

Proefschrift

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden
op gezag van de Rector Magnificus, prof. mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op dinsdag 22 december 2015 klokke 11:15

door

Steven Wink

geboren op 2 april 1980 te Warnsveld, Nederland

Promotor

Prof. Dr. B. van de Water Leiden University

Promotion committee

Prof. Dr. P.H. van der Graaf Leiden University

Prof. Dr. J. Kuiper Leiden University

Prof. Dr. A.P. Ijzerman Leiden University

Prof. Dr. G. M. M. Groothuis University of Groningen

Prof. Dr. J. Kleinjans University Maastricht

This research was conducted at the Division of Toxicology of the Leiden Academic Centre for Drug Research, Leiden University, Leiden, The Netherlands

Table of contents

Chapter 1	1
General introduction and background.	
Chapter 2	13
Quantitative High Content Imaging of Cellular Adaptive Stress Response Pathways in Toxicity for Chemical Safety Assessment.	
Chapter 3	37
High Content Imaging-based BAC-GFP Toxicity Pathway Reporters to Assess Chemical Adversity Liabilities.	
Chapter 4	59
Drug-induced Endoplasmic Reticulum and Oxidative Stress Responses Independently Sensitize Towards TNF α -mediated Hepatotoxicity.	
Chapter 5	85
Activation of the Nrf2 response by intrinsic hepatotoxic drugs correlates with suppression of NF- κ B activation and sensitizes towards TNF α -induced cytotoxicity.	
Chapter 6	113
Automated live cell imaging of adaptive stress responses for assessment of drug-induced liver injury (DILI) liabilities.	
Chapter 7	139
User friendly high-content imaging big-data analysis on a single desktop: R package H5CellProfiler.	
Chapter 8	155
Overall discussion and conclusions.	
Appendix	
References	162
List of abbreviations	174
Samenvatting	175
List of publications	180
Curriculum Vitae	182
