The publication of this thesis was financially supported by ABBOTT B.V., Apotheekzorg, AstraZeneca B.V., Janssen Biologics B.V. (former Centocor B.V.), Merck Sharp & Dohme B.V., Novartis Pharma B.V., het Reumafonds, Roche Nederland B.V., Sandoz B.V., Sectra dxr-online, Schering-Plough B.V., Teva Pharma Nederland.

# Contents

- Chapter 1. General introduction
- PART I. IMPROVED TREATMENT OF UNDIFFERENTIATED ARTHRITIS**
- Chapter 2. Efficacy of methotrexate treatment in patients with probable rheumatoid arthritis: a double-blind, randomized, placebo-controlled trial
- Chapter 3. Disease activity, joint damage and functional disability and the effect of methotrexate treatment in patients with undifferentiated arthritis with or without anti-citrullinated protein antibodies
- Chapter 4. Drug-free remission, relapse or persistent disease after discontinuation of methotrexate or placebo therapy in patients with undifferentiated arthritis
- Chapter 5. Validity of the disease activity score in undifferentiated arthritis
- PART II. METHOTREXATE IN RHEUMATOID ARTHRITIS**
- Chapter 6. Multinational evidence-based recommendations for the use of methotrexate in rheumatic disorders with a focus on rheumatoid arthritis: integrating systematic literature research and expert opinion of a broad international panel of rheumatologists in the 3E initiative
- Chapter 7. Optimal dosage and route of administration of methotrexate in rheumatoid arthritis: a systematic review of the literature
- Chapter 8. Risk and management of liver toxicity during methotrexate treatment in rheumatoid and psoriatic arthritis: a systematic review of the literature
- PART III. IMPROVED TREATMENT OF RHEUMATOID ARTHRITIS**
- Chapter 9. A matrix risk model for the prediction of rapid radiographic progression in rheumatoid arthritis patients receiving different dynamic treatment strategies: Post-hoc analyses from the BeSt study
- Chapter 10. Sustained drug-free remission in rheumatoid arthritis after DAS-driven or non-DAS-driven therapy: a comparison of two cohort studies
- Chapter 11. General discussion and conclusions
- Nederlandse samenvatting
