Prof. Dr. B.E. Damato (Royal Liverpool and Broadgreen University Hospital,
Liverpool, United Kingdom)
Dr. A.C. Moll (Vrije University Medical Center, Amsterdam)

The patient care is the center of the medical universe around which all our work revolves and towards which all our efforts tend.

J.B. Murphy
(1857 – 1916)
Professor of surgery
Northwestern university, Chicago, USA

To honour my parents

With gratitude to my husband

With love to my sons

Contents

Chapter 1	General Introduction	9
PART 1	Diagnosis of iris and iridociliary melanoma	
Chapter 2	Guidelines for diagnosis and treatment decision of suspected iris and iridociliary melanomas based on clinical and ultrasound biomicroscopic features	33
Chapter 3	Anterior segment imaging for iris melanocytic tumors	53
Chapter 4	Mesectodermal suprauveal iridociliary leiomyoma: Transscleral excision without postoperative iris defect	67
PART II	Surgical management of iris melanoma and correlation with histopathology	
Chapter 5	Clinical and pathologic characteristics of biopsy proven iris Melanoma: A Multicenter International Study	77
Chapter 6	Iris melanoma in a child treated with iridectomy and a phakic iris repair implant lens: A case report of 8 years follow-up	97
PART III:	Plaque brachytherapy for iris melanoma	
Chapter 7	Ruthenium plaque radiation therapy for iris and iridociliary melanomas	107
Chapter 8	Ruthenium plaque radiation for iris and iridociliary melanomas: Development of dry eyes?	123
Chapter 9	Corneal endothelial cell density after ruthenium plaque radiation therapy for iris melanoma patients	131
Chapter 10	Summary and general discussion	147
	Nederlandse Samenvatting	159
	Appendix	171
	Acknowledgements	183
	List of Publications	189
	Curriculum Vitae	195
