Life amidst Singularities

Your guide to local expansions.

Since the organisational structure was proven to make no difference, all work is now done by Messrs Lotka & Volterra.

Apparently it is only from the third order onwards that things start to diverge, and versions start to differ.

Sexual dimorphism: males and females evolve to forage for different resources.

Two homozygotes and their heterozygote offspring, with noticeably allround inferior performance: in size, in cooking, driving & language skills, etc.
