# Challenges and opportunities in nasal subunt vaccine delivery : mechanistic studies using ovalbumin as a model antigen

Slütter, B.A.

# CHALLENGES AND OPPORTUNITIES IN NASAL SUBUNIT VACCINE DELIVERY

mechanistic studies using ovalbumin as a model antigen

## Proefschrift

Ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof.mr. P.F. van der Heijden,
volgens het besluit van het College van Promoties
te verdedigen op 27 januari 2011
klokke 16:15

About the cover:
The application of a nasal vaccine could be accomplished using a spray, which is already common practice for several small molecular weight drugs. The formulation of vaccines however, still needs investigation. Should we formulate antigens in particles, perhaps?
Figure: Cislunar Aerospace, San Francisco, California.

The publication of thesis was financially supported by the J.E. Jurriaanse stichting.
