*Life is short
Break the rules
Forgive quickly
Kiss slowly
Love truly
Laugh uncontrollably
and never regret anything
that made you smile*

*Mark Twaine, 1835-1910
ter nagedachtenis aan Kim Megens*

Contents

Chapter 1.	General Introduction	9
Chapter 2.	No recurrence of sporadic primary hyperparathyroidism when cure is established 6 months after parathyroidectomy	37
Chapter 3.	Limitations of Tc99m-MIBI-SPECT imaging scans in persistent primary hyperparathyroidism	59
Chapter 4.	The role of selective venous sampling in the management of persistent hyperparathyroidism revisited	85
Chapter 5.	Hungry bone syndrome: still a challenge in the post-operative management of primary hyperparathyroidism. A systemic review of the literature	107
Chapter 6.	Patients with primary hyperparathyroidism have lower circulating sclerostin levels than euparathyroid controls	133
Chapter 7.	Increased circulating levels of FGF23 an adaptive response in primary hyperparathyroidism ?	147
Chapter 8.	Challenges and pitfalls in the management of parathyroid carcinoma, 17 years follow-up of a case and review of the literature	163
Chapter 9.	Downregulation of CASR expression and global loss of parafibromin staining are strong negative determinants of prognosis in parathyroid carcinoma	187
Chapter 10.	Challenges and pitfalls in the management of persistent primary hyperparathyroidism a case series	209
Chapter 11.	General Discussion	231
Chapter 12.	Nederlandse samenvatting	253
