Title: Drugs, structures, fragments : substructure-based approaches to GPCR drug discovery and design

Date: 2012-05-31

Drugs, Structures, Fragments

Substructure-based approaches to GPCR drug discovery and design

Drugs, Structures, Fragments

Substructure-based approaches to GPCR drug discovery and design

PROEFSCHRIFT

ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof. mr. P.F. van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 31 mei 2012
klokke 16:15 uur

door

Eelke van der Horst

geboren te Voorburg
in 1976

Promotiecommissie

Promotor: Prof. Dr. A. P. IJzerman

Copromotor: Dr. A. Bender

Overige leden: Prof. Dr. H. van Vlijmen

Prof. Dr. T. Hankemeier

Prof. Dr. J. de Vlieg

Prof. Dr. M. Danhof

CidruX Pharminformatics B.V. is gratefully acknowledged for financially supporting the printing of this thesis.

The research described in this thesis was performed at the Division of Medicinal Chemistry of the Leiden/Amsterdam Center for Drug Research, Leiden University (Leiden, The Netherlands). This research was conducted as part of the GPCR forum of the Dutch Top Institute Pharma (project number D1-105).

This thesis was printed by Wöhrmann Print Service (Zutphen, The Netherlands)

千里之行, 始于足下

Qiān lǐ zhī xíng, shǐ yú zú xià

(The journey of a thousand miles begins with a single step)

Lao-tzu, The Way of Lao-tzu

Chinese philosopher (604 BC - 531 BC)

Contents

Chapter 1. General Introduction	9
Chapter 2. Substructure-Based Approaches to GPCR Drug Discovery and Design	25
Chapter 3. Substructure Mining of GPCR Ligands Reveals Activity-Class Specific Functional Groups in an Unbiased Manner	65
Chapter 4. A novel chemogenomics analysis of G protein-coupled receptors (GPCRs) and their ligands: a potential strategy for receptor de-orphanization	113
Chapter 5. Substructure-Based Virtual Screening for Adenosine A _{2A} Receptor Ligands	145
Chapter 6. Multi-Objective Evolutionary Design of Adenosine Receptor Ligands	175
Chapter 7. General Conclusion and Perspectives	215
Summary	227
Samenvatting	230
List of publications	235
Curriculum Vitae	237
Nawoord	239
Abbreviations	241
