

CONTENTS

Summary	3
Samenvatting	5
Chapter 1 General introduction	9
Chapter 2 Molecular phylogeny of <i>Coelogyne</i> (Epidendroideae, Orchidaceae) based on plastid RFLPs, <i>matK</i> and nuclear ribosomal ITS sequences: evidence for polyphyly	17
<i>Submitted</i>	
Chapter 3 Total evidence phylogeny of <i>Coelogyne</i> and allied genera (Coelogyninae, Epidendroideae, Orchidaceae) based on morphological, anatomical and molecular characters ...	35
<i>Manuscript</i>	
Chapter 4 Revision of <i>Coelogyne</i> section <i>Speciosae</i> (Orchidaceae) <i>Partly published in Blumea 44 (1999): 253–320</i>	57
Chapter 5 Revision of <i>Coelogyne</i> section <i>Fuliginosae</i> (Orchidaceae) <i>Published in Blumea 45 (2001): 253–273</i>	135
Chapter 6 Revision of <i>Coelogyne</i> section <i>Verrucosae</i> (Orchidaceae): a new sectional delimitation based on morphological and molecular evidence	155
<i>Published in Blumea 45 (2001): 275–318</i>	
References	199
Curriculum vitae	205
Nawoord	207
