of life histories in a seasonal butterfly**

PROEFSCHRIFT

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden

op gezag van de Rector Magnificus Prof. Mr. C.J.J.M. Stolker

volgens besluit van het College voor Promoties

te verdedigen op woensdag 26 Juni 2013

klokke 11:15 uur

door

Vicencio Oostra

geboren te Ibagué, Colombia

in 1981

Promotiecommissie

Promotoren

Prof. Dr. Bas J. Zwaan (Universiteit Leiden en Universiteit Wageningen)

Prof. Dr. Paul M. Brakefield (Universiteit Leiden en University of Cambridge, UK)

Overige leden

Dr. Casper J. Breuker (Oxford Brookes University, UK)

Prof. Dr. Carel J. ten Cate (Universiteit Leiden)

Prof. Dr. Jacintha Ellers (Vrije Universiteit, Amsterdam)

Prof. Dr. Doug J. Emlen (University of Montana, USA)

Prof. Dr. Laurent Keller (University of Lausanne, Switzerland)

Prof. Dr. Anthony J. Zera (University of Nebraska-Lincoln, USA)

The research described in this thesis was supported by and carried out in the context of the EU-funded Network of Excellence LifeSpan (FP6 / 036894), with additional support by IDEAL (FP7/2007-2011/259679). The printing of this thesis was financially supported by the J.E. Jurriaanse Stichting, Rotterdam.

Table of Contents

Chapter 1	General introduction	9
Chapter 2	Translating environmental gradients into discontinuous reaction norms via hormone signalling in a polyphenic butterfly	31
Chapter 3	Ecdysteroids link juvenile environment to adult life history syndrome in a seasonal insect	49
Chapter 4	Seasonally induced expression variation in life history genes in the butterfly <i>Bicyclus anynana</i>	75
Chapter 5	Developmental signature of the ageing-related transcriptional profile in a seasonal butterfly	103
Chapter 6	On the fate of seasonally plastic traits in a rainforest butterfly under relaxed selection	145
Chapter 7	Summary, discussion and perspective	175
Chapter 8	Nederlandse Samenvatting – Summary in Dutch	189
Addendum	List of Publications	201
	Curriculum Vitae	203
