Title: The role of AGC3 kinases and calmodulins in plant growth responses to abiotic signals

Issue Date: 2014-10-15

The role of AGC3 kinases and calmodulins in plant growth responses to abiotic signals

Yuanwei Fan

The role of AGC3 kinases and calmodulins in plant growth responses to abiotic signals

Proefschrift

Ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof. mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op woensdag 15 oktober 2014
klokke 16:15 uur

door

Yuanwei Fan

Geboren te Weifang (China) in 1984

Promotiecommissie

Promotor: Prof. dr. P.J.J. Hooykaas

Co-promotor: Dr. R. Offringa

Overige leden: Prof. dr. J Kudla (Univ. Münster, Germany)
Prof. dr. J. Memelink
Prof. dr. B. van Duijn (Fytagoras, Leiden)
Prof. dr. C.J. ten Cate

Contents

	Page
Chapter 1	7
Ca ²⁺ signaling in the regulation of auxin transport by developmental and environmental signals	
Chapter 2	39
TOUCHing PINOID: A Calmodulin – Kinase Interaction Modulates Auxin Transport Polarity during Root Gravitropism	
Chapter 3	89
PINOID plasma membrane association and calmodulin binding converge on an amphipathic alpha helix/IQ-like motif	
Chapter 4	125
AGC3 kinase-calmodulin signaling in phyllotaxis	
Summary	151
Samenvatting	159
<i>Curriculum vitae</i>	166
