**Issue Date:** 2012-11-06

# **Metabolic risk factors in depressive and anxiety disorders**

Arianne Klaartje Beraldine van Reedt Dortland

The infrastructure for the NESDA study ([www.nesda.nl](http://www.nesda.nl)) is funded through the Geestkracht program of the Netherlands Organisation for Health Research and Development (ZonMw, grant number 10-000-1002) and is supported by participating universities and mental health care organizations (VU University Medical Centre, GGZ inGeest, Arkin, Leiden University Medical Centre, GGZ Rivierduinen, University Medical Centre Groningen, Lentis, GGZ Friesland, GGZ Drenthe, Scientific Institute for Quality of Health Care [IQ Healthcare], Netherlands Institute for Health Services Research [NIVEL] and Netherlands Institute of Mental Health and Addiction [Trimbos]). Data analyses were supported by a Netherlands Organisation for Scientific Research (NWO) grant (VIDI 917.66.320) to prof.dr. B.W.J.H. Penninx.

Financial support by the Dutch Heart Foundation and by the J.E. Jurriaanse Foundation for the publication of this thesis is gratefully acknowledged. Further financial support for the printing of this thesis was kindly provided by Gijs Lauret, Lundbeck B.V. and Servier Nederland Farma B.V.

prof. dr. R.C. Oude Voshaar (Universitair Medisch Centrum Groningen)  
prof. dr. H. Pijl

Er is iets meer waard dan een geleerde te zijn.  
Dat is een mens te zijn.

Jules Gabriel Compayré (1843-1913), bron onvindbaar

## Contents

Chapter 1	General introduction	11
Chapter 2	Metabolic syndrome abnormalities are associated with severity of depression and anxiety and with tricyclic antidepressant use	29
Chapter 3	Associations between serum lipids and major depressive disorder	45
Chapter 4	Symptom dimensions of depression and anxiety and the metabolic syndrome	61
Chapter 5	Longitudinal relationship of depressive and anxiety symptoms with dyslipidemia and abdominal obesity	79
Chapter 6	Increased sympathetic and decreased parasympathetic activity rather than changes in hypothalamic-pituitary-adrenal axis activity is associated with metabolic abnormalities	93
Chapter 7	The impact of biological stress systems and lifestyle on dyslipidemia and obesity in anxiety and depression	109
Chapter 8	Personality traits and childhood trauma as correlates of metabolic risk factors	125
Chapter 9	Summary and general discussion	141
	References	157
	List of abbreviations	175
	Nederlandse samenvatting	179
	Curriculum vitae	189
	List of publications	193
	List of co-authors	197
