Role of Apolipoprotein CI in Lipid Metabolism and Bacterial Sepsis

Role of Apolipoprotein CI in Lipid Metabolism and Bacterial Sepsis

Proefschrift
ter verkrijging van
de graad van Doctor aan de Universiteit van Leiden,
op gezag van Rector Magnificus prof.mr. P.F. van der Heijden,
volgens besluit van het College voor Promoties
te verdedigen op donderdag 24 mei 2007
klokke 13.45 uur

door

Jimmy Fransiscus Paulus Berbée
geboren te Leiden
in 1977

Promotiecommissie

Promotor: Prof. dr. ir. L.M. Havekes
Co-Promotor: Dr. P.C.N. Rensen
Referent: Dr. E.S.G. Stroes (AMC, Amsterdam)
Overige leden: Prof. dr. J.A. Romijn
Prof. dr. R.G.J. Westendorp
Dr. H.E. de Vries (VUMC, Amsterdam)

The studies presented in this thesis were performed at the Gaubius Laboratory of TNO-Quality of Life and the department of Endocrinology and Metabolic Diseases at the Leiden University Medical Center, Leiden, The Netherlands. The research was financially supported by a grant from the Netherlands Organization of Scientific Research-Research Institute of Diseases in the Elderly (NWO-RIDE Grant 014-90-001).

The printing of this thesis was financially supported by:
TNO-Quality of Life, business unit Biosciences, Leiden
Dutch Atherosclerosis Society
Boehringer-Ingelheim BV
Schering-Plough BV
Merck Sharp & Dohme BV

Cover design: Jimmy Berbée

Printing: Ponsen & Looijen bv, Wageningen, The Netherlands

ISBN: 978-90-6464-130-5

Berbée, Jimmy

Role of Apolipoprotein CI in Lipid Metabolism and Bacterial Sepsis

Proefschrift Leiden

Contents

Chapter 1	General Introduction <i>Partly published in J Endotoxin Research 2005</i>	9
Chapter 2	Severe Hypertriglyceridemia in Human <i>APOC1</i> Transgenic Mice is Caused by Apolipoprotein CI-induced Inhibition of LPL <i>J Lipid Research 2005</i>	59
Chapter 3	Apolipoprotein CI Directly Inhibits LPL Activity Independent of the VLDL Receptor and Apolipoprotein CIII in Mice <i>Biochim Biophys Acta 2006</i>	79
Chapter 4	Apolipoprotein E Plasma Levels and Risk of Cardiovascular Mortality in Old Age <i>PLoS Medicine 2006</i>	93
Chapter 5	Apolipoprotein CI Stimulates the Inflammatory Response to Lipopolysaccharide and Reduces Mortality in Gram-negative Sepsis <i>FASEB J 2006</i>	113
Chapter 6	Apolipoprotein CI Modulates the Biological Response to Lipopolysaccharide: Analysis of the Structure and Function Relationship <i>Manuscript in preparation</i>	131
Chapter 7	Plasma Apolipoprotein CI Correlates with Increased Survival in Patients with Severe Sepsis <i>Submitted for publication</i>	147
Chapter 8	Plasma apolipoprotein CI Protects Against Mortality from Infection in Old Age <i>Submitted for publication</i>	161
Chapter 9	General Discussion	173
Chapter 10	Summary/Samenvatting	189
Chapter 11	List of Abbreviations	201
	List of Publications	204
	Curriculum Vitae	209
