Title: Plasmonic enhancement of one-photon- and two-photon-excited single-molecule fluorescence by single gold nanorods

Date: 2018-06-28

The background of the cover is a photograph of a lighthouse situated on a dark, rocky island in the middle of the ocean. The sun is setting in the distance, creating a warm, orange and yellow glow across the sky and reflecting on the water's surface. The lighthouse is a small, white, cylindrical structure with a dark top. The overall mood is serene and contemplative.
