# **Glucocorticoid modulation of the immune response**

## **Studies in zebrafish**

Proefschrift

ter verkrijging van

de graad van Doctor aan de Universiteit Leiden,  
op gezag van Rector Magnificus prof.mr. C.J.J.M. Stolker,  
volgens besluit van het College voor Promoties  
te verdedigen op donderdag 26 november 2020  
klokke 10:00 uur

door

**Yufei Xie**

geboren te Pingxiang, Jiangxi, China  
in 1990

**Promotores:** Dr. Marcel J.M. Schaaf

Prof. dr. Annemarie H. Meijer

**Promotiecommissie:**

Prof. dr. Gilles van Wezel

Prof. dr. Herman Spaink

Prof. dr. Alexander Kros

Prof. dr. Karolien De Bosscher (Ghent University)

Dr. Maria Forlenza (Wageningen University and Research)

# Table of contents

|                                                                                                                                                                |     |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Chapter 1:</b> Introduction .....                                                                                                                           | 6   |
| <b>Chapter 2:</b> Modeling inflammation in zebrafish for the development of anti-inflammatory drugs.....                                                       | 24  |
| <b>Chapter 3:</b> Glucocorticoids inhibit macrophage differentiation towards a pro-inflammatory phenotype upon wounding without affecting their migration..... | 56  |
| <b>Chapter 4:</b> Glucocorticoid treatment exacerbates mycobacterial infection by reducing the phagocytic capacity of macrophages .....                        | 96  |
| <b>Chapter 5:</b> Liposome encapsulation of prednisolone phosphate improves its therapeutic ratio in a zebrafish model for inflammation.....                   | 122 |
| <b>Chapter 6:</b> Summary and Discussion .....                                                                                                                 | 148 |
| Samenvatting.....                                                                                                                                              | 160 |
| Curriculum vitae .....                                                                                                                                         | 164 |
| List of Publications.....                                                                                                                                      | 165 |
