Curriculum vitae

Janice Sandjojo was born on 17 March 1986 in The Hague, the Netherlands, where she also completed her secondary education at Dalton Den Haag in 2004. She obtained her bachelor's degree in Psychology at Utrecht University in 2007 (cum laude) and her master's degree in Clinical Neuropsychology at Leiden University in 2010 (cum laude). She wrote her master thesis about preterm born children at the Erasmus MC-Sophia, which was nominated for the Thesis Award of the Institute of Psychology (Leiden University). She did her clinical internship with people with acquired brain injury and comorbid psychiatric problems at Bavo Europort, where she continued to work as a neuropsychologist afterwards.

Since 2011 Janice works as a lecturer at the Health, Medical and Neuropsychology unit of Leiden University. She coordinates, develops, and teaches several work groups and lectures about (neuro)psychology for various courses. In addition, she has supervised numerous master students who were working on their thesis, internship or 'Basisaantekening Psychodiagnostiek'. In the meantime she worked as a (neuro) psychologist at the Leiden University Medical Center, Rijnlands Revalidatiecentrum, Haags Centrum voor Onderwijsadvies, and Sophia Revalidatie. She was involved in the care for various client populations, amongst which adults with neurological, auto-immune, oncological, and respiratory diseases and children with learning problems.

Apart from her work as a university lecturer and a psychologist in a clinical setting, Janice started to work part time on her PhD study at the Health, Medical and Neuropsychology unit of Leiden University by the end of 2014. This study was conducted in collaboration with Raamwerk, a care organisation for people with disabilities. She gave many presentations about this study at various international conferences and symposia. At the International Association for the Scientific Studies of Intellectual Disabilities World Congress in Melbourne in 2016 she received a University of Vienna Fellowship and the award for the best poster presentation. In 2017, she won the award for best oral presentation at the Association for Researchers in Psychology and Health conference. After working on her PhD study for 4 years, she finished her dissertation in 2018.

Janice currently still works as a lecturer at Leiden University and also as a psychologist within rehabilitation services at Basalt in The Hague.

Dankwoord

Zonder de bijdrage van vele anderen, was dit proefschrift er niet geweest. Graag bedank ik hier een aantal mensen in het bijzonder.

Allereerst gaat mijn dank uit naar alle deelnemers van het onderzoek. Zonder jullie inzet waren de studies beschreven in dit proefschrift niet mogelijk geweest. Het meest heb ik genoten van de ontmoetingen met de mensen met een verstandelijke beperking. Het was ontzettend mooi te zien hoe jullie je ontwikkelden! Van de focusgroepdeelnemers heb ik veel geleerd over hoe het is te leven met een verstandelijke beperking en hoe de zorg voor mensen met een verstandelijke beperking geregeld is, of geregeld zou moeten zijn. Heel veel dank voor deze waardevolle inzichten.

Zonder de wetenschappelijke bijdrage van mijn (co)promotores, was dit proefschrift niet tot stand gekomen. Jullie waren er voor me als ik het nodig had. Andrea, vol vertrouwen gaf je mij de kans dit promotieonderzoek met veel vrijheid uit te voeren. Daar ben ik heel dankbaar voor. Ik heb ontzettend veel geleerd van je veelzijdige expertise en je oneindige optimisme. Aglaia en Winnie, dank voor jullie snelle en kritische feedback en het mij wegwijzen in de wereld van de wetenschap. Net zo belangrijk voor mij is jullie aanmoediging, persoonlijke steun en betrokkenheid geweest, zeker op de momenten dat het even tegenzat.

Graag bedank ik ook de leden van de promotie- en oppositiecommissie voor het lezen en beoordelen van dit proefschrift. Prof. dr. Petri Embregts wil ik in het bijzonder bedanken voor de persoonlijke betrokkenheid en bijdrage aan de literatuurreview.

Joop Hoekman, ik heb veel gehad aan jouw expertise over mensen met verstandelijke beperkingen en jouw hartelijke persoonlijkheid maakte het heel prettig samenwerken, veel dank daarvoor.

De betrokken medewerkers van Raamwerk, de academie voor Zelfstandigheid en 's Heeren Loo wil ik graag bedanken voor al hun inspanningen, met in het bijzonder Iris Biezenaar, Jeanet den Haan, Marco van der Plas, Marijke van der Meer en alle begeleiders die op welke manier dan ook hebben bijgedragen aan het onderzoek.

Elise Dusseldorp en Mathilde Verdam, dank voor jullie begeleiding bij het uitvoeren van de statistische analyses.

Arthur van Rhijn en Marlou Gosman, dank voor jullie ondersteuning bij de data-invoer en het analyseren van de focusgroepen. Emma Eltringham, dank voor het vele werk wat je hebt verricht voor de literatuurreview, je pakte alles snel op en zo kon ik met een gerust hart van alles aan je overlaten.

Alle fijne collega's van de Faculteit Sociale Wetenschappen wil ik bedanken voor de gezellige momenten, jullie interesse, steun en adviezen! In het bijzonder de (oud-)collega's van de sectie Gezondheids-, Medische en Neuropsychologie.

Bernadet en Cornelia, heel fijn dat jullie mij willen bijstaan als paranimf! Dank voor jullie vriendschap, het kunnen ventileren tijdens 'lotgenotencontact' en al jullie adviezen omtrent promoveren.

Lieve vrienden, te veel om bij naam te noemen, mijn leven naast werk is mij heel dierbaar en jullie zijn daar een belangrijk onderdeel van. Dank voor jullie vriendschap, gezelligheid en luisterend oor!

Ten slotte, wil ik al mijn familieleden bedanken en dan met name de 'Sandjojo's'. Papa en mama, jullie hebben altijd hard gewerkt om ons een goede toekomst te kunnen bezorgen. Nog steeds doen jullie er alles aan om ons te helpen waar nodig. Overigens ook waar niet nodig, jullie liefde en zorg kennen geen grenzen. Virginia en Bram, dank voor alle gezellige etentjes en uitstapjes waardoor ik even 'los' van werk kon komen. Quinten en Vayenne, mijn allerliefste schatties, met jullie spelen, knuffelen en lachen is een feest. Misja, samen thuis is het fijnst. Bedankt voor al je goede zorgen en geduld. Nu samen op naar het volgende hoofdstuk en een nieuw leven, ik kijk er al naar uit!
