PERSONALISED MEDICINE OF FLUOROPYRIMIDINES USING *DPYD* PHARMACOGENETICS

Carin Lunenburg

The research presented in this thesis was performed at the department of Medical Oncology and the department of Clinical Pharmacy and Toxicology of Leiden University Medical Center, Leiden, The Netherlands. Financial support for publication of this thesis was provided by departmental funds from the departments of Medical Oncology and Clinical Pharmacy & Toxicology of the Leiden University Medical Center, Leiden, the Netherlands.

The research described in this thesis has been made possible by funding from the Dutch Cancer Society (Alpe-d'HuZes/KWF-fund NKI2013-6249) and the Dutch foundation ZonMw (Goed Gebruik Geneesmiddelen/ project number 848016007). Carin Lunenburg was supported by an unrestricted grant from Roche Pharmaceuticals. There was no involvement in the study design, data collection, analysis or interpretation of the data.
