Author: Gaag, K.J. van der

Title: Development of forensic genomics research toolkits by the use of Massively Parallel Sequencing

Issue Date: 2019-11-27

Development of forensic genomics research toolkits
by the use of Massively Parallel Sequencing

Kristiaan van der Gaag

Colophon

Development of forensic genomics research toolkits by the use of Massively Parallel Sequencing

The research described in this thesis was financially supported by the Leiden University Medical Center and by a grant from the Netherlands Genomics Initiative / Netherlands Organization for Scientific Research (NWO) within the framework of the Forensic Genomics Consortium Netherlands

Author	Kristiaan J. van der Gaag
ISBN / EAN:	978-94-6332-585-1
Cover	FDSTools visualisation (samplevis) of sequencing variation from 14 STR loci in a set of 300 dutch individuals
Back cover	FDSTools samplestats table
Layout & cover design	Kristiaan van der Gaag and Jerry Hoogenboom

Development of forensic genomics research toolkits by the use of Massively Parallel Sequencing

Proefschrift

Ter verkrijging van
de graad van Doctor aan de Universiteit Leiden,
op gezag van Rector Magnificus prof.mr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op woensdag 27 november 2019
klokke 11:15 uur

ter nagedachtenis aan Martijn van der Gaag

Table of contents

Chapter 1:	9
Introduction / Outline	
Chapter 2	21
TSSV: a tool for characterization of complex allelic variants in pure and mixed genomes	
Chapter 3	65
Forensic Nomenclature for Short Tandem Repeats updated for sequencing	
Chapter 4	73
Massively Parallel Sequencing of Short Tandem Repeats – Population data and mixture analysis results for the PowerSeq™ system	
Chapter 5	129
FDSTools: A software package for analysis of massively parallel sequencing data with the ability to recognise and correct STR stutter and other PCR or sequencing noise	
Chapter 6:	181
Short hypervariable microhaplotypes: A novel set of very short high discriminating power loci without stutter artefacts	
Chapter 7:	221
General Discussion	
Epilogue	245
List of publications	247
Summary thesis	251
Nederlandse samenvatting	257
Dankwoord	263
Curriculum Vitae	264
