Title: Real-time foresight : preparedness for dynamic innovation networks

Issue Date: 2016-12-20

Curriculum Vitae

Christina Weber was born in Stuttgart on July, 20th 1971. She studied sociology at the University of Bielefeld, Germany, and gained her diploma with honours. Her thesis was on the alteration of the nation state at the example of European environmental policy.

She began her professional life at GESIS (Leibniz Institute for Social Sciences), Mannheim, in 2002 as a scientific assistant for CUI (computer-assisted text- and content analysis), then from 2005 onwards made her voluntary engagement with developmental cooperation a professional mandate and worked for the Karl Kuebel Foundation for the Child and Family (KKS), Bensheim. There she managed programmes for rural development and sustainable agriculture, micro saving and disaster management with Indian and global partners.

Since March 2008, she has worked for the Strascheg Centre for Entrepreneurship (SCE), at Munich University of Applied Sciences, first in communication and entrepreneurship education, then as head of communication, and since 2013 as head of the SCE research department.

Her main research interests are dynamic innovation networks, actor-network theory (ANT), collective governance, entrepreneurship education, foresight, and disaster management. As a sociologist, she has strong experience in qualitative methods of social research, and still has a passion for collaborative European research programmes (for example, in the NITIM network) and the new development of big data.

List of Publications

Some ideas and figures in the thesis previously appeared in the following publications.

Journal Publications

2016
