Table of Contents

Introduction

Chapter 1	General introduction and outline of the thesis	9
Chapter 2	Decrease of hypervirulent <i>Clostridium difficile</i> PCR ribotype 027 in the Netherlands <i>Eurosurveill 2009</i>	27
Chapter 3	<i>Clostridium difficile</i> infection in the community: a zoonotic disease? <i>Clin Microbiol Infect 2012</i>	35

Part I: Population at risk for a *Clostridium difficile* infection

Chapter 4	<i>Clostridium difficile</i> infection in an endemic setting in the Netherlands <i>Clin Microbiol Infect 2012</i>	61
Chapter 5	Time-interval of increased risk for <i>Clostridium difficile</i> infection after exposure to antibiotics <i>Clin Microbiol Infect 2012</i>	77
Chapter 6	Diarrhoea in general practice: when should a <i>Clostridium difficile</i> infection be considered? <i>Submitted</i>	93

Part II: Course and outcome of *Clostridium difficile* infections

Chapter 7	All-cause and disease specific mortality in hospitalized patients with <i>Clostridium difficile</i> infections; a multicenter cohort study <i>Clin Infect Dis 2013</i>	115
Chapter 8	Renal failure and leukocytosis are predictors of a complicated course of <i>Clostridium difficile</i> Infection if measured on day of diagnosis <i>Clin Infect Dis 2012</i>	131
Chapter 9	<i>Clostridium difficile</i> infection due to binary toxin positive strains <i>Emerg Infect Dis 2013</i>	143

Chapter 10	Predicting a complicated course of <i>Clostridium difficile</i> infection at the bedside <i>Submitted</i>	149
Discussion		
Chapter 11	A discussion	167
Chapter 12	Dutch summary	195
