Appendices

Appendix One: Basic data about children who participated in the ethnographic study

Biodata	Home size	Experience with LRA	Common problems	Dealing with common problems	Social networks	Common illnesses at home	Medicines used in quests for well-being
David Abonga (male, 10 years age)	5	Father was killed when he stepped in a landmine.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent, taking care of sickly mother-then registered in World Vision ART programme.	Fetching water for sale, doing <i>leja leja</i> .	Pastor of BBC always prayed for them, property owner, neighbours' children, World Vision distributed food stuffs.	Malaria, diarrhoea, ARIs, persistent headaches, tormenting of family especially mother by Satan.	Fansidar, Panadol, Amoxicillin or Tetracycline, Hedex, chloroquine, Action, Flagyl. Mother collects antiretroviral from Lacor PEPFAR project. Use various herbal remedies including <i>atika</i> .
Kevin Adokor-ach (female, 12 years of age)	5	Father died of HIV/AIDS. They came to Laroo due to fear of abduction by LRA.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent, taking care of sickly mother-then registered in World Vision ART programme.	Doing <i>leja leja</i> , fetching water for sale, loading crushed stones on lorry, borrowing, visiting friends, sleeping in night commuters' shelters.	Sickly mother, World Vision, Friends and classmates, two older brothers aged 14 and 16, neighbours' children.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Panadol, Amoxicillin or Tetracycline, chloroquine, Hedex, Action, Flagyl. Mother collected antiretrovirals from Lacor PEPFAR project.
Harriet Acan (female, 15 years of age)	5	Lost elder sister to landmines. Mother died of poisoning by neighbours. Father remarried. She took care of her younger siblings in a separate household.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent	Doing <i>leja leja</i> , fetching water for sale, babysitting, borrowing, begging, visiting friends, sleeping in night commuters' shelters.	Aunt lived in Lacor camp. Father lived in Bungantira with another wife, neighbours' children, and property owner.	Malaria, persistent headaches and stomach-aches, diarrhoea, ARIs, <i>cen</i> .	Flagyl, Panadol, Amoxicillin, Imodium, chloroquine, Tetracycline, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.

Brenda Aciro (female, 10 years of age)	8	Both parents were killed in an ambush of a car from Kitgum to Gulu.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent.	Doing <i>leja leja</i> , fetching water for sale, babysitting, borrowing, begging, visiting friends, sleeping in night commuters' shelters.	Lived with alcoholic grandmother, neighbours, property owner, friends and classmates. Aunt lived in neighbouring Masindi district.	Malaria, persistent headaches and stomach-aches, diarrhoea, ARIs, and that epilepsy which disturbed Namungu.	Amoxicillin or Tetracycline, Panadol, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.
Vicky Ajok [Deceased] (female, 14 years of age)	5	Abduction and murder of father, displacement. Mother died of HIV/AIDS.	Lack of basic needs, food, basic shelter, living in misery, lack of household utensils.	Doing <i>leja leja</i> , fetching water for sale, borrowing from friends and landlady, going to buy foodstuffs in camps where they are cheaper than in Gulu town, selling sugarcanes at For God Catholic Cathedral.	Property owner, friends and classmates, neighbours' children relatives in Alero camp.	Malaria, scabies, diarrhoea, stomach-aches, persistent headaches, epilepsy.	Flagyl, Panadol, Fansidar, Tetracycline, chloroquine, and numerous herbal remedies including <i>atika</i> , <i>lace</i> , <i>cwiny lapena</i> , <i>cwiny kalatuc</i> .
Alice Akelloan (female, 15 years of age)	3	Murder of her father and displacement. Abduction and killing of elder brother Odokorach.	Lack of basic needs, such as food, household utensils, difficulty in paying house rent.	Doing <i>leja leja</i> , going back to Anaka camp for food, borrowing from property owner, asking for utensils through children of property owner.	Aunt in Cereleno suburb, children of landlady, neighbours' children, mother lived in Anaka camp.	Malaria, scabies, diarrhoea, stomach-aches.	Hedex, Flagyl, chloroquine, Action, Panadol, Fansidar.
Jacklyn Akwero (female, 14 years of age)	3	Father was killed in an ambush by the LRA. Mother was a registered client at WV-ART programme.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent, taking care of sickly mother in World Vision ART programme.	Doing <i>leja leja</i> , fetching water for sale, borrowing, begging, visiting friends, sleeping in night commuters' shelters.	Sickly mother, friend of mother, World Vision distributed food items. Friends and classmates.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Panadol, Fansidar, Amoxicillin, Tetracycline, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.

Josephine Anek (female, 12 years of age)	3	Mother died in 2006 due to HIV/AIDS. Sickly father lived in Alero camp. During school holidays, she always went to Alero camp.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent.	Doing <i>leja leja</i> , fetching water for sale, borrowing, visiting friends, sleeping in night commuters' shelters.	Father and grandmother who-then lived in Alero camp. Friends, classmates, neighbours' children.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Fansidar, Panadol, Amoxicillin or Tetracycline, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.
Vicky Aol (female, 12 years of age)	4	Rejection by close kin due to complex life history. Lived in Mican in 2005-2007, then relocated to Pabbo camp in 2008.	Lack of basic needs, hunger, diseases, poor shelter, living in misery.	Smearing people's huts with mud for money, <i>leja leja</i> , fetching water for sale, buying foodstuffs in a market in Unyama where prices were lower. Borrowing utensils from property owner.	16-year brother Ojok was a bicycle man, friends and classmates, neighbours' children property owner's children.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Hedex, Action, chloroquine, Fansidar, <i>atika plants</i> , herbal remedies such as <i>lace</i> , <i>cwiny lapena</i> , <i>kor muyeme</i> .
Brenda Apiyo (female, 14 years of age)	6	Shifted after death of both parents to HIV/AIDS to Laroo. She linked their migration to exclusion and discrimination from community in Palenga camp.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent.	Doing <i>leja leja</i> , fetching water for sale, borrowing, visiting friends, sleeping in night commuters' shelters. Loading crushed stones on lorries.	Uncle lived in Palenga camp. They were registered in World Vision ART project as vulnerable children, neighbours' children.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches, <i>cen</i> .	Hedex, Panadol, Amoxicillin or Tetracycline, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.

Concy Apiyo (female, 15 years of age)	2	Mother became mad due to 'malaria madongo' i.e. Severe malaria. Father remarried. She was the eldest taking care of younger brother in Koro camp.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent. Worry of what will happen to the mad mother. Discrimination from other children.	Doing <i>leja leja</i> , fetching water for sale, taking care of sickly caretaker borrowing, visiting friends, sleeping in night commuters' shelters.	Father lives in Palenga camp. Grandmother takes care of mad mother. Friends, neighbours' children classmates. Younger brother Bernard and property owner in Layibi.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Painex, Panadol, Amoxicillin, Imodium, chloroquine, Tetracycline, <i>lace, atika</i> , mango tree leaves and a wide range of herbal remedies.
Malaika Apiyo (female, 15 years of age)	3	A former child soldier. She lived with an HIV/AIDS client who was her caretaker. The client was also an employee of World Vision	Hunger, poor shelter, difficulties in taking care of the sick friend who is registered with WV- ART programme. Lack of basic needs and house rent.	Doing <i>leja leja</i> . Taking care of sick friend who sometimes provided basic needs. Fetching water for sale.	World Vision sometimes distributed food to registered clients. Friends, neighbours, pastor at Deliverance church.	Persistent headaches, malaria, diarrhoea, scabies, ARIs, stomach aches.	Hedex, Painex, Panadol, <i>Lace, atika</i> , chloroquine. Collects ARVs for caretaker from Lacor or Gulu Regional Referral Hospital.
Teopista Atoo (female, 13 years of age)	4	Both parents died of HIV/AIDS in 2003, and 2004 respectively.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent, taking care of sickly grandmother. They were registered in World Vision ART programme as vulnerable children.	Doing <i>leja leja</i> , fetching water for sale, taking care of sickly caretaker borrowing, visiting friends, sleeping in night commuters' shelters.	Live in Limu with grandmother. Aunt lives in Kirombe. Friends who are classmates.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Fansidar. Flagyl, Panadol, capsules (Amoxicillin, Tetracycline), chloroquine, <i>lace, atika</i> , mango tree leaves and a wide range of herbal remedies.
Irene Laker (female, 12 years of age)	3	Since they feared abduction, they came to live at Ariaga west of Gulu municipality from Unyama camp.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent.	Doing <i>leja leja</i> , fetching water for sale, borrowing, begging, visiting friends, sleeping in night commuters' shelters.	Relatives lived in Kitgum. Aunt sells local brew in Pece. Sometimes they helped in the business till late in the night.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches, syphilis.	Hedex, Painex, Panadol, Amoxicillin, Tetracycline, chloroquine, <i>lace, atika</i> , mango tree leaves and a wide range of herbal remedies.

Oscar Namungu (female, 14 years of age)	8	Both parents were killed in an ambush by the LRA of a car from Kitgum to Gulu.	Hunger, lack of basic needs, living with alcoholic grandmother, inability to meet school expenses.	Digging for food in Koro camp, Fetching water for sale, doing <i>leja leja</i> , selling grass for thatching houses, spending nights in Noah's Ark shelters.	Lived with alcoholic grandmother, neighbours, property owner, friends and classmates. Aunt in neighbouring Masindi district. <i>ajwaka</i> in Kasubi, and Pastor of Life-line ministries.	Epilepsy, malaria, persistent headaches and stomach-aches, diarrhoea.	Fansidar, Hedex, Action, chloroquine, Amoxicillin, Tetracycline. Attended healing services at Life line ministries. Visited <i>ajwaka</i> in Kasubi suburb, uses various herbal remedies.
Bernard Oceng (male, 13 years of age)	9	Father died when he was very young. They migrated due to war and fear of abduction from Kitgum.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent, taking care of sickly mother in World Vision ART programme.	Crushing stones at quarry in Laroo for money. Selling stones, fetching water for sale, doing <i>leja leja</i> in Palenga camp, bought foodstuffs cheaply in Palenga and Koro.	Relatives in Palenga camp. Friends who are classmates. Property owner. Mother was a registered client for ART programme at World Vision.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Flagyl, Fansidar, Panadol, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies. Mother took ARVs got from Gulu hospital and sometimes from Lacor hospital.
Denis Patrick Ojok (male, 15 years of age)	2	Father was killed by LRA. Mother lives in Pader camp, during holidays he always went to Pader camp.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent.	Doing <i>leja leja</i> , fetching water for sale, borrowing, visiting friends, sleeping in night commuters' shelters.	Mother lives in Pader camp. 7-year-old sister. Friend Aलोbo, classmates and neighbour who informed him where to do <i>leja leja</i> . Property owner informed him where to buy medicines.	Malaria, diarrhoea, ARIs, scabies Persistent headaches, <i>tipu' cen</i> of deceased father.	Hedex, Panadol, chloroquine, Amoxicillin, Tetracycline, <i>lace</i> , <i>cwiny lapena</i> , <i>cwiny kalatuc</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies. He was nicknamed <i>Ajwaka</i> due to his vast knowledge in herbal remedies.
Moses Ojok (male, 15 years of age)	3	Mother died of HIV/AIDS, father registered at World Vision ART programme. Abduction and killing of eldest brother.	Hunger, poor shelter, lack of household utensils and other basic needs, taking care of sickly father registered in World Vision ART programme.	Doing <i>leja leja</i> , fetching water for sale, taking care of sickly caretaker borrowing, visiting friends, sleeping in night commuters' shelters.	Nuns gave them where to stay at Laroo forest after frequent hut evictions. World Vision distributed food to its clients. Friends and classmates.	Malaria, diarrhoea, ARIs, scabies stomach aches, Persistent headaches.	Painex, Panadol, Flagyl, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies. Father took Antiretroviral medicines from Lacor hospital.

Richard Ojok (male, 15 years of age)	14	Displacement, he did not know what killed his father.	Poor shelter, lack of food, lack of household utensils and other basic needs, difficulty in paying house rent, taking care of sickly mother.	Crushing stones at quarry in Laroo for money. Selling stones, fetching water for sale, doing <i>leja leja</i> in Unyama camp, buying foodstuffs cheaply in Unyama camp.	Pastor of Life line ministries often conducted healing sessions for mother and family, neighbours' children World Vision distributed food to them.	Malaria, diarrhoea, ARIs, persistent headaches, tormenting of family especially mother by Satan.	Panadol, chloroquine, Amoxicillin or Tetracycline, Fansidar, Painex, <i>cwiny lapena</i> (leaves of pigeon peas) for cough, <i>cwiny kalatuc</i> (leaves of eucalyptus) for cough, Hedex, Action. Attending healing services, mother used to collect ARVs from Lacor.
Christopher Okello (male, 12 years of age)	5	LRA killings of father, Displacement. Mother died of HIV/AIDS believed to have acquired from a UPDF soldier in barracks at Bardege.	Poor shelter, lack of food, lack of household utensils and other basic needs, difficulty in paying house rent.	Fetching water for sale, digging for nuns at For God Cathedral, selling sugarcanes at same Cathedral, borrowing from property owner.	The then 14-year old sister Ajok, landlady, neighbours' children friends who are classmates.	Tuberculosis, chest pain, malaria, diarrhoea, persistent headaches, something painful moving around his body.	Rifampin, Hedex, chloroquine, Amoxicillin or Tetracycline, Panadol various herbal remedies for common illnesses.
Denis Okello (male, 15 years of age)	5	Father was killed by a landmine. His mother remarried a former UPDF soldier.	Hunger, poor shelter, lack of household utensils and other basic needs, difficulty in paying house rent. Mother and 'uncle' are sickly with HIV/AIDS related symptoms. They were not registered in any ART projects.	Doing <i>leja leja</i> , fetching water for sale, borrowing, visiting friends, sleeping in night Pentecostal Assemblies of God church in Kiroombe (PAG).	Sickly mother and the man who houses them. Pastor of PAG church. Aunt, friends and classmates	Malaria, diarrhoea, ARIs, scabies. Persistent headaches, something painful moving around his body.	Panadol, chloroquine, Amoxicillin or Tetracycline, <i>lace, atika</i> , mango tree leaves and a wide range of herbal remedies. He went for healing, prayer and fasting services at PAG. Pastor 'counselled' and prayed for family.

Geoffrey Okello (male, 15 years of age)	4	Both parents were killed on separate occasions by rebel attacks in Pader.	Lack of basic needs such as food, clothes, household utensils, and money for school fees. Living in fear of being infected with leprosy.	Doing <i>leja leja</i> , fetching water for sale, taking care of leprosy woman in return for 'free' housing, borrowing, begging, visiting friends, sleeping in night commuters' shelters.	Leprous woman was mother of 'uncle' living in Kampala. He was a small scale trader. Friends who were classmates. Relatives in Pader camp. Pastor at Bridge Builders' Church (BBC).	Malaria, diarrhoea, lives in fear of getting leprosy. Persistent headaches, syphilis.	Panadol, Amoxicillin, Tetracycline, chloroquine, Action, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.
Walter Oketch (male, 13 years of age)	5	Killings of both parents in Pader by armed men and displacement.	Lack of food, basic necessities, diseases, poor shelter, hostile neighbours.	Doing <i>leja leja</i> , fetching water for sale, babysitting, borrowing, begging, visiting friends, sleeping in night commuters' shelters.	Friends at school who were classmates, landlady, neighbours' children, 14-year old sister, aunt lives in Pader camp.	Malaria, ARIs, diarrhoea, scabies, persistent headaches, <i>cen</i> , something painful moving around the body.	Panadol, capsules including Amoxicillin or Tetracycline, chloroquine, <i>lace</i> , <i>atika</i> , mango tree leaves and a wide range of herbal remedies.
Patrick Omony (male, 15 years of age)	7	Displacement, Parents' whereabouts were not exactly clear since he was raised by the grandmother until his 'brother' took over the responsibility.	Lack of food, poor shelter, and commuting to night commuters' shelters.	Doing <i>leja leja</i> , carrying agricultural produce to the market for money, fetching water for sale, Going to Alero camp for food, requesting pastor of BBC for assistance and counselling, sleeping in night commuters' shelters.	Aunt and elder brother lived in Alero camp, Pastor of BBC, friends and classmates, 'old woman' in the neighbourhood, neighbours' children property owner.	Malaria, scabies, diarrhoea, stomach-aches, persistent headaches, epilepsy, <i>cen</i> .	Hedex, Action, Panadol, chloroquine, Fansidar, <i>lace</i> , <i>atika</i> and herbal remedies such as pigeon pea leaves, prayers for healing and deliverance.

Appendix Two: List of acronyms

ADF	Allied Democratic Forces
AMREF	Africa Medical Research Foundation
AVSI	The International Service Volunteers' Association
CMR	Crude Mortality Rate
CSOPNU	Civil Society Organisation for Peace in Northern Uganda
DDHS	District Directorate of Health Services
DHO	District Health Officer
HIV/AIDS	Human Immuno-deficiency Syndrome/ Acquired Immuno-deficiency Syndrome
ICRC	International Committee of the Red Cross
IOM	International Organisation for Migration
IDP(s)	Internally Displaced Person(s)
GRRH	Gulu Regional Referral Hospital
GUSCO	Gulu Support the Children's Organisation
HURIFO	Human Rights Focus
JCCMC	Joint Country Coordination and Monitoring Committee
LRA	Lord's Resistance Army
MOH	Ministry of Health
MSF	Medicines sans Frontiers[Medicines without borders]
NGO(s)	Non-Governmental Organisation(s)
NRA	National Resistance Army
NRC	Norwegian Refugee Council
NURP	Northern Uganda Rehabilitation Programme
NUSAF	Northern Uganda Social Action Fund
RDC	Resident District Commissioner
SCiU(G)	Save the Children in Uganda
UN	United Nations
UNICEF	United Nations Children's Fund
UNOCHA	United Nations Office for the Coordination of Humanitarian Affairs
UPDA	Uganda Peoples' Defense Army
UPDF	Uganda People's Defence Force
WFP	World Food Programme
WHO	World Health Organisation
WVCFAC	World Vision Centre for Formerly Abducted Children

Appendix Three: List of Acholi words and phrases

<i>Abaa wic</i>	Headache
<i>Abaa wic lela</i>	Migraines (also persistent headaches)
<i>Ajwaka</i>	Indigenous healer
<i>Aona ki avuru</i>	Cough and flu
<i>Aona opiu</i>	Tuberculosis
<i>Can</i>	Sadness or poverty (distinction is clear per context/sentence in which the term is used)
<i>Can dwong ataa</i>	Deep emotional pain
<i>Cango kene</i>	Heals itself
<i>Cen</i>	Evil spirits
<i>Cwinya cwer</i>	My heart is bleeding [my heart is aching/emotional wound/sadness]
<i>Guru lyel</i>	Last funeral rites
<i>Kec</i>	Hunger
<i>Koyo</i>	Coldness [fever]
<i>Kumu</i>	Misery over loss of close kin
<i>Latin kwan</i>	School-going child
<i>Latin lum moo</i>	A certain child soldier
<i>Leja leja</i>	Casual farm labour
<i>Lyeto</i>	High body temperature
<i>Malaria madongo</i>	Very severe malaria
<i>Mony</i>	Soldiers or armed personnel
<i>Morokole</i>	A devoted Christian or a person who is saved
<i>Ot yat</i>	Hospital
<i>Ot yat adit</i>	Gulu Regional Referral Hospital
<i>Ryemo tipo</i>	Chasing <i>tipo</i>
<i>Pii loya</i>	I am discouraged [I am overwhelmed]
<i>Tipu</i>	Harmless spirit (also <i>Tipu</i> meaning spirits of close kin)
<i>Two</i>	Illness [also disease]
<i>Two tam</i>	Illness of the mind [also brain is not functioning] (Though used in validated psychometric assessments to mean depressive-like-syndromes)

Appendix Four: List of tables and boxes

Tables	Titles	page
Table 4.1	Study sample characteristics(N=165)	100
Table 4.2	Illness experiences (or health complaints) within a one-month recall(N=165)	101
Table 4.3	Coding of illness experiences (or health complaints) within a one month recall(N=165)	103
Table 4.4	Illnesses as ultimately coded(N=165)	104
Table 4.5	Symptoms of illnesses within a one month recall(N=165)	105
Table 4.6	Medicines commonly used by children(N=165)	106
Table 4.7	Coding of medicines used by children within a one month recall(N=165)	108
Table 4.8	Medicines used by children as ultimately coded(N=165)	109
Table 4.9	Sources of medicines for children(N=165)	112
Table 4.10	Herbal medicines used by children within a one month recall(N=165)	114
Table 5.1	Prevalence of malaria within a one month recall(N=165)	117
Table 5.2	Medicines used in management of malaria within a one month recall(N=165)	117
Table 6.1	Prevalence of diarrhea(s) within a one month recall(N=165)	133
Table 6.2	Medicines used in treatment of diarrhea within one month recall(N=165)	134
Table 6.3	Herbal medicines used in treatment of diarrhea within a one month recall(N=165)	134
Table 7.1	Prevalence of acute respiratory infections within one month recall(N=165)	156
Table 7.2	Medicines used in treatment of acute respiratory infections within one month recall(N=165)	156
Table 7.3	Herbal medicines used for cough within a one month recall	157
Table 8.1	Prevalence of scabies within a one month recall(N=165)	176
Table 8.2.	Medicines used in treatment of scabies within a one month recall(N=165)	176
Table 8.3	Herbal medicines used in treatment of scabies within a one month recall(N=165)	177
Table 9.1	Prevalence of eye infections within a one month recall(N=165)	188
Table 9.2	Coded prevalence of eye infections within a one month recall(N=165)	189
Table 9.3	Medicines used in management of eye infections within a one month recall(N=165)	189
Table 10.1	Prevalence of wounds, injuries, epilepsy and snakes bites within a one month recall(N=165)	197
Table 10.2	Medicines used in management of wounds, injuries, epilepsy and snakebites within a one month recall(N=165)	199
Table 11.1	Prevalence of complaints possibly symptomatic of emotional distress within a one month recall(N=165)	218
Table 11.2	Medicines used in management of complaints possibly symptomatic of emotional distress within a one month recall(N=165)	218
	Boxes	
Box 3.1	Description of night commuters' shelter	67
Box 3.2	Description of a displaced primary school	73

Appendix Five: List of figure, maps, illustrations and photographs

Item	Title	Page
Figure 1	Problem Analysis Diagram: A multilevel perspective for wartime children's suffering and quests for therapy	28
Map 1	Map of Africa	v
Map 2	Map of Uganda showing districts of Gulu, Kitgum and Pader	v
Map 3	Gulu district with its 'protected' villages	96
Illustration 1	LRA activities in abducting children	97
Illustration 2	UPDF activities in 'protecting' children in displaced persons camps	97
Illustration 3	Common illnesses experienced in a one month recall	241
Illustration 4	Common medicines used in a one month recall	241
Photograph 1	A 'protected' village in 2006	96
Photograph 2	The plant <i>atika</i> (Labiata species)	241

Appendix Six: Questionnaire used in a survey with 165 children [N=165]

Names of the child

Age

Village of origin

Primary school

Class

Name illnesses you experienced in the recent past, for example in the last one month.

For illnesses you mentioned above, how did you know that you were ill? [Describe symptoms].

Name the medicines you used to get better in the recent past, for example in the past one month.

Where did you get the medicines?

Did you go to hospital?

Reasons for not going to hospital?

How did you know you were ill?

Herbal medicines used if any

Did you use all the medicines as you were told to?

Why didn't you use all the medicines as advised?

What are the problems you faced in accessing medicines you needed?

Thank you for participating in the study

Appendix Seven: Generic names and active ingredients of pharmaceuticals commonly used by wartime children

Pharmaceuticals	Generic name	Active ingredient
Action	paracetamol, aspirin and caffeine	Paracetamol 300mg and caffeine 50mg, aspirin 600mg
Amoxicillin	amoxicillin	Amoxicillin cryohydrate 250mg or 500mg capsules
Chloroquine	chloroquine	Chloroquine sulphate 150mg
Fansidar	pyrimethamine + sulfadoxine	Pyrimethamine 25mg, Sulfadoxine 500mg
Flagyl	metronidazole	Metronidazole 200mg, 400mg
Gentamycin eye drops	gentamycin eye drops	Gentamycin sulphate 0.3%
Imodium	loperamide hydrochloride	Loperamide hydrochloride, 2mg
Largactil	chlorpromazine	Chlorpromazine hydrochloride 25mg, 50mg, 100mg
Multivitamin	multivitamin	Ascorbic acid 15mg, nicotinamide 7.5mg, riboflavine 500 micrograms, thiamine hydrochloride 1mg, vitamin A 2,500 units, vitamin D 300 units
Opele (sodium benzoate)	benzyl benzoate sodium	Benzyl benzoate sodium 25%
Panadol	paracetamol	Paracetamol 500mg
Piriton	chlorpheniramine	Chlorpheniramine maleate 4mg
PPF	procain penicillin fortified	Procain penicillin 1.8 gm, benzylpenicillin sodium 360 mg
Quinine	quinine	Quinine dihydrochloride 300mg or Quinine hydrochloride 300mg Quinine sulphate 300 mg
Septrin	co-trimoxazole	Sulfamethoxazole and Trimethoprim 480mg
Valium	diazepam	Diazepam 2mg, 5mg, 10mg
Vemox	mebendazole	Mebendazole 100mg

Appendix Eight: List of herbal remedies commonly used by children

Herbal medicine (Acholi name)	Common name	Scientific name
<i>Acaka caka</i> (large leaves)	Eurphorbiaceae	<i>Euphorbia heterophylla</i> <i>L.</i>
<i>Acaka caka</i> (small leaves)	Euphorbiaceae	<i>Euphorbia hirta L.</i>
<i>Atika</i> (green flowers)	Chenopodiaceae	<i>Chenopodium procerum</i> Moq.
<i>Atika</i> (Inguce) yellow flowers	Ocimum	<i>Ocimum basilicum L.</i>
<i>Atika</i> (purple flowers)	Labiatae	<i>Orthosipon australis</i> <i>vatka</i>
<i>Atura</i> (White flowers)	Apocynaceae	<i>Adenium somalense.</i> <i>Bak.f.</i>
<i>Ding tong</i>	Compositae	<i>Coryza floribunda</i>
<i>Kako</i>	Euphorbiaceae	<i>Flueggea virosa (Wild)</i> <i>viogt</i>
<i>Labika</i>	Black jack (Compositae)	<i>Bidens pilosa</i>
<i>Laburi</i>	Compositae	<i>Vernonia amydalina</i>
<i>Lace</i>	not identified	not identified
<i>Lango</i>	Rhamnaceae	<i>Ziziphus abyssinica</i>
<i>Lapena</i>	Wild pigeon peas	<i>Cajanus cajan (L.) Mill</i> <i>sp.</i>
<i>Lira</i>	Meliaceae (Neem Tree)	<i>Melia azdarach L.</i>
<i>Lotoro</i>	Commelinaceae	<i>Commelina banghalensis L.</i>
<i>Moringa</i>	Moringa	<i>Moringa oleifera</i>
<i>Obolo</i>	Moraceae	<i>Ficus platyphylla</i>
<i>Ocok</i>	Sodom apple	<i>Mitracarpus villosus</i>
<i>Olwedo</i>	not identified	not identified
