Promotiecommissie

Promotor: Prof. dr. J.M. Wit

Co-promotores: Dr. H.B.J. Karperien (Universiteit Twente)
Dr. W. Oostdijk

Overige leden: Prof. dr. H.A. Delemarre-van de Waal
Prof. dr. J.C. van Houwelingen
Prof. dr. M. Breuning
Dr. B.C.J. van der Eerden (Erasmus Universiteit Rotterdam)

A man's reach should extend his grasp,
or what's a heaven for?

Robert Browning, 1855

Table of contents

Chapter 1	General introduction	9
Part A	Clinical trials with growth hormone in children with ISS	
Chapter 2	High dose growth hormone treatment limited to the prepubertal period in young children with idiopathic short stature does not increase adult height <i>European Journal of Endocrinology 2010;162(4): 653-660</i>	43
Chapter 3	Final height outcome following 3 years of growth hormone and gonadotropin releasing hormone agonist treatment in short adolescents with relatively early puberty <i>The Journal of Clinical Endocrinology and Metabolism 2007;92(4):1402-1408</i>	63
Part B	Animal studies on the effect of aromatase inhibition	
Chapter 4	Marginal growth increase, altered bone quality and polycystic ovaries in female prepubertal rats after treatment with the aromatase inhibitor exemestane <i>Hormone Research in Paediatrics 2010;73(1):49-60</i>	85
Chapter 5	Impaired body weight and tail length gain and altered bone quality after treatment with the aromatase inhibitor exemestane in prepubertal male rats <i>Hormone Research in Paediatrics 2010;73(5):376-385</i>	111
Part C	An alternative model for growth studies	
Chapter 6	Human fetal mesenchymal stem cells differentiating towards chondrocytes display a similar gene expression profile as growth plate cartilage <i>Submitted for publication</i>	135

Chapter 7	General discussion	171
Chapter 8	Summary	185
Chapter 9	Samenvatting	191
	Curriculum Vitae	197
	List of publications	201
	List of abbreviations	205
