TABLE OF CONTENTS

INTRODUCTION	7
CHAPTER 1 General introduction	9
CHAPTER 2 Evaluation of a novel highly sensitive, broad-spectrum PCR-reverse hybridization assay for detection and identification of beta-papillomavirus DNA	29
NATURAL HISTORY	41
CHAPTER 3 Betapapillomaviruses frequently persist in the skin of healthy individuals	43
CHAPTER 4 Prevalence and associated factors of betapapillomavirus infections in individuals without cutaneous squamous cell carcinoma	53
CHAPTER 5 Intrafamilial transmission and family-specific spectra of cutaneous beta-papillomaviruses	67
DISEASE ASSOCIATION	75
CHAPTER 6 Prevalence of mucosal and cutaneous human papillomaviruses in different histologic subtypes of vulvar carcinoma	77
CHAPTER 7 Presence of beta human papillomaviruses in non melanoma skin cancer from renal transplant recipients and immunocompetent patients in the West of Scotland	91
CHAPTER 8 Genital and cutaneous human papillomavirus (HPV) types in relation to conjunctival squamous cell neoplasia: a case-control study in Uganda	101
DISCUSSION AND CONCLUSIONS	113
CHAPTER 9 General discussion and conclusions	115
APPENDICES	127
NEDERLANDSE SAMENVATTING	129
CURRICULUM VITAE	133
PUBLICATIONS	137
