The research presented in this thesis was performed at the Department of Nephrology of the Leiden University Medical Center, The Netherlands.

This Ph.D. project was supported by a grant from the Dutch Kidney Foundation.

Printing of this thesis was financially supported by the Dutch Kidney Foundation, Nederlandse Transplantatie Vereniging, Hycult Biotech, Astellas Pharma B.V. and ABN AMRO.

Pathogenic role of complement in renal ischemia/reperfusion injury

Proefschrift

ter verkrijging van
de graad van doctor aan de Universiteit Leiden,
op gezag van de Rector Magnificus Prof. mr. dr. C.J.J.M. Stolker,
volgens besluit van het College voor Promoties
te verdedigen op dinsdag 12 november 2013
klokke 13.45 uur

door

CONTENTS

Chapter 1	General introduction	9
Chapter 2	Natural IgM antibodies are involved in the activation of complement by hypoxic human tubular cells <i>Am J Physiol Renal Physiol 2011; 300:F932-40</i>	45
Chapter 3	Acute but transient release of terminal complement complex after reperfusion in clinical kidney transplantation <i>Transplantation 2013; 95:816-20</i>	65
Chapter 4	Pitfalls in urinary complement measurements <i>Transpl Immunol 2012; 27:55-8</i>	77
Chapter 5	Mannan-binding lectin mediates renal ischemia/reperfusion injury independent of complement activation <i>Am J Transplant 2012; 12:877-87</i>	87
Chapter 6	Mannan-binding lectin mediates endoplasmic reticulum stress and affects mitochondrial homeostasis in tubular cells following renal ischemia/reperfusion through GRP78/BIP <i>In preparation</i>	107
Chapter 7	Recombinant human C1 inhibitor fails to reduce Mannan-binding lectin-mediated tubular injury in a rat model of renal ischemia/reperfusion <i>In preparation</i>	127
Chapter 8	Renal ischemia/reperfusion induces a dysbalance of angiopoietins, accompanied by proliferation of pericytes and fibrosis <i>Am J Physiol Renal Physiol 2013; 305:F901-1</i>	143
Chapter 9	General discussion and summary	161
Chapter 10	Nederlandse samenvatting	183
	List of abbreviations	194
	Curriculum vitae	196
	Bibliography	198
