Contents

Chapter 1	7
General introduction and aim of this thesis	
Part I: Preventive treatment of migraine	
Chapter 2	25
Preventive therapy for migraine, a narrative 'umbrella' review.	
Chapter 3	53
Preventive therapy for migraine in primary care, a population based study in the Netherlands.	
Chapter 4	71
Prophylactic treatment of migraine by general practitioners; a qualitative study.	
Chapter 5	85
Prophylactic treatment of migraine; the patient's view, a qualitative study.	
Chapter 6	103
Migraine patients' acceptance or rejection of prophylactic medicine: a cross-sectional study.	
Part 2: Preventive treatment of migraine	
Chapter 7	113
Patient preference in a randomized double-blind rizatriptan- ibuprofen multi-migraine attack trial.	
Chapter 8	135
Naratriptan 2.5 mg versus paracetamol (acetaminophen) 1000 mg for the acute treatment of migraine in General Practice: patients preference as primary outcome.	
Part 3: Medication overuse	
Chapter 9	155
Triptan overuse in the Dutch general population: a nationwide pharmaco-epidemiology database analysis in 6.7 million people.	
Other	
Chapter 10	175
General discussion	
Chapter 11	185
Summary	
Chapter 12	191
